

CLARIFICATION 1

Additional information for MANDATORY PRE-BID MEETING

Project No. ENG1903701130

Electrical Renovation at Wyandotte Large Cave

Due to the unique features and work environs presented by the cave, the Pre-Bid Meeting is MANDATORY. The Pre-Bid Meeting will include a tour of the portion of the cave in the project area.

Bids will only be accepted from Prime Contractors that have attended the Pre-Bid meeting. Failure of a Bidder or a Bidder's designated representative to attend the Pre-Bid Meeting shall be cause for rejection of a bid by the State.

If the amount of the work to be performed by a Sub-Contractor would require that the Sub-Contractor be pre-qualified by the Public Works Board, then that Sub-Contractor is also required to attend the Pre-Bid Meeting. Attendance by any and all minor Sub-Contractors that would perform work in the cave is also strongly recommended.

Each Contractor attending the Pre-Bid Meeting shall be required to sign-in at the start of the meeting and at the end of the meeting.

Please note the following information concerning the length and conditions of the guided cave tour that will be conducted as part of the pre-bid meeting. The tour takes approximately two (2) hours and is one and one half (1.5) miles in length. Meeting attendees will need to be in good physical health and must be able to navigate steep terrain and many stairs. The cave interior is consistently near 52 degrees F. Some cave passageways are narrow in width and/ or height. There are no restroom facilities available in the cave.
