

Classified Forest & Wildlands Program and the Pandemic

Thank you for your patience in regard to this newsletter and the annual reports. As with most other things this spring, our plans were delayed by the pandemic, but we are happy to be able to get this issue to you now.

District foresters are doing field visits. You're welcome to accompany your forester when they visit your property, but per social distancing, expect no handshakes and for them to keep their distance from you as you walk around your property together. If for any reason you are unable or uncomfortable meeting with your district forester in person, that is OK. Just call or email them before the scheduled visit. Let them know if you have any specific questions or areas you would like them to examine. The district forester can call you after the field visit or include the information gathered in your plan. Let us know how we can best serve you.
