

Indiana Department of Natural Resources - Division of Forestry

Morgan-Monroe State Forest

Compartment 19, Tract 18 (Ravinia Woods)

Management Guide Amendment

March 25, 2011

Forester – Phil Jones

The original guide was written in 2006 and prescribed openings on the southwest slopes to remove damaged and diseased trees. The opening marked in this tract is on a northerly slope and is approximately 0.8 acres. This area was chosen based on criteria described in the original plan, but also due to poor stocking. There will be opportunity in the next rotation to mark openings on some of the southwest slopes.

Pre-harvest grapevine control will be implemented in the opening using a 20% Garlon 4 basal bark application method.
