

Draft

**Indiana Department of Natural Resources - Division of Forestry  
Resource Management Guide Amendment  
Compartment 10 Tract 09  
Morgan Monroe State Forest  
Forester: Sean Sheldon  
May 22, 2012**

During timber marking of this tract, 2 regeneration openings were used to convert pine stands to hardwood stands. These areas had large components of hardwood encroachment in the understory. Regeneration openings will allow for the understory of hardwoods to be released and occupy the overstory in the future.
