Certification Regarding Eligibility
To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974, as amended ("Act"), 19 U.S.C. § 2273, the Department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance.

The group eligibility requirements for workers of a firm under Section 222(a) of the Act, 19 U.S.C. § 2272(a), are satisfied if the following criteria are met:

(1) a significant number or proportion of the workers in such workers' firm have become totally or partially separated, or are threatened to become totally or partially separated; and

(2) (A) (i) the sales or production, or both, of such firm have decreased absolutely; and

(ii) (I) imports of articles or services like or directly competitive with articles produced or services supplied by such firm have increased; and

(iii) the increase in imports described in clause (ii) contributed importantly to such workers' separation or threat of separation and to the decline in the sales or production of such firm.

The investigation was initiated in response to a petition filed on January 9, 2018 on behalf of workers of Parker Hannifin Corporation, Industrial Process Division, Tell City, Indiana (Parker Hannifin-Industrial Process). Workers of Parker Hannifin-Industrial Process are engaged in activities related to the production of filters. The subject worker group includes on-site leased workers from DXE Staffing, Manpower, and Advantage Staffing.

Section 222(a) (1) has been met because a significant number or proportion of the workers in Parker Hannifin-Industrial Process have become totally or partially separated, or are threatened to become totally or partially separated.

Section 222(a) (2) (A) (i) has been met because the sales and/or production at Parker Hannifin-Industrial Process have decreased absolutely.

Section 222(a) (2) (A) (ii) has been met because company imports of articles like or directly competitive with the article produced by Parker Hannifin-Industrial Process have increased during the relevant period when compared to the representative base period.

Finally, Section 222(a) (2) (A) (iii) has been met because increased imports contributed importantly to the worker group separations and sales/production declines at Parker Hannifin-Industrial Process.

Conclusion

After careful review of the facts obtained in the investigation, I determine that workers of Parker Hannifin-Industrial Process, who are engaged in activities related to the production of filters, meet the worker group certification criteria under Section 222(a) of the Act, 19 U.S.C. § 2272(a). In accordance with Section 223 of the Act, 19 U.S.C. § 2273, I make the following certification:

"All workers of Parker Hannifin Corporation, Industrial Process Division, including on-site leased workers from DXE Staffing, Manpower, and Advantage Staffing, Tell City, Indiana, who became totally or partially separated from employment on or after January 8, 2017 through two years from the date of certification, and all workers in the group threatened with total or partial separation from employment on the date of certification through two years from the date of certification, are eligible to apply for adjustment assistance under Chapter 2 of Title II of the Trade Act of 1974, as amended."

Signed in Washington, D.C. this 28th day of February 2018.
