To: Division of Disability and Rehabilitative Services Day Services Providers
From: Cathy Robinson, Director, Bureau of Developmental Disabilities Services
Re: HCBS providers non-residential site assessment remediation plan responses and webinar
Date: April 1, 2018

In follow up to the Home and Community-Based Services site assessments non-residential provider remediation plans that have been submitted, the Division of Disability and Rehabilitative Services Bureau of Developmental Disabilities Services will begin sending responses to providers with feedback beginning the week of April 15, 2019.

On April 23 and April 25, a mandatory webinar session for non-residential BDDS providers will be held to discuss the feedback provided regarding the non-residential provider specific remediation plans and trends noted during BDDS review of the plans.

Providers are encouraged to have their draft remediation plans on hand when they join or view the presentation as the webinar sessions will explain the contents required for a successful submission of the plan to ensure approval. Providers who are currently undergoing site visits will also be required to participate. The HCBS Final Rule ensures that settings where services are provided are integrated in and support full access to the greater community.

The agenda will include an explanation of the site assessments review process and technical assistance on the non-residential sites remediation plans. If unable to attend the live webinar, it will be recorded and posted on the [HCBS Final Rule Statewide Transition Plan webpage](#) for viewing at a later date. Additional information on the Final Rule can also be located there.

Mandatory webinar for providers (specific to non-residential providers only)

To participate in the webinar on **Tuesday April 23, at 9 a.m. EDT, or Thursday April 25, at 10 a.m. EDT** please log onto URL: <https://Indiana.AdobeConnect.com/bdds>

- Participants will sign in as a guest using their name.
- Audio will be voice over internet, so participants will need to use speakers or headphones to hear the presentation.
- Do not log into the webinar using Citrix or Virtual Private Network (VPN). These services will not be able to playback audio.

Prior to the webinar, please check your organization's connection to ensure it has latest updates and add-ins. To do so, please go to
