Indiana Interagency Autism Coordinating Council Authority

On October 24, 2005, the Indiana Commission on Autism passed the resolution that the Indiana Family and Social Services Agency (FSSA) would serve as the lead agency to oversee and update the development of a comprehensive plan for services for individuals of all ages with Autism Spectrum Disorder (ASD)

Subsequently, FSSA through the Division of Disability and Rehabilitative Services (DDRS) contracted with the Autism Society of Indiana from 2007-2012 and HANDS in Autism[®] from 2014 to present to facilitate the Indiana Comprehensive State Plan for Individuals with ASD, which established the Indiana Interagency Autism Coordinating Council (IIACC).

The IIACC is a consortium of several Indiana agencies, governmental departments' providers, individuals and family members that work together to advance issues related to persons in Indiana with Autism. Creation and execution of the IIACC is mandated by the Indiana Comprehensive State Plan for Individuals with ASD.
