Welcome to the Indiana Family and Social Services Administration website! We hope you find this to be an invaluable portal for information as you seek services in Indiana.

As secretary of FSSA, it is my mission to harness every possible resource to help Hoosiers in their times of need and improve health outcomes for our great state.

Indiana has historically ranked poorly in health outcomes, but we are starting to make headway and we are committed to keep that trend going!

We have a collective vision at FSSA that all Hoosiers live in fully engaged communities and reach their greatest emotional, mental and physical well-being. This aspirational vision is important.

So is our mission, which is to compassionately serve Hoosiers of all ages and connect them with social services, health care and their communities.

I think we are helping to accomplish that thanks to the hard work of our seven departments at FSSA. Whichever department(s) serve your needs, please visit their web page and contact them for assistance.

We value our clients and want to continue to enhance our services for all Hoosiers.

We are not finished! Our challenge at FSSA is to continue this momentum. Together we can accomplish many things and, most importantly, we can work together with a common voice to make thoughtful, fact-based decisions that improve the lives of Hoosier families and communities.

Thank you!
