You may complete the full survey or only the questions you choose. The survey is anonymous and no identifying information is collected. Individuals who need help in completing the survey may call the Bureau of Rehabilitation Services at 1-800-545-7763 or 317-234-2907 for assistance.

Every three years, Vocational Rehabilitation agencies are required to develop a Comprehensive Statewide Needs Assessment. As part of the assessment, VR is requesting your feedback on the need for services, or gaps in services for job seekers with disabilities. VR wants to provide the best services possible and needs your ideas. Your answers to the survey questions are very important and will help VR improve services for individuals with disabilities.

Please help us to get the word out by sharing the survey link with others, including individuals with disabilities and their families, parent, consumer or advocacy groups, employers, and others who have interest in employment of individuals with disabilities.

Thank you in advance for your assistance.
