Total In-State Handle

(Handle - money wagered by the betting public on pari-mutuel races.)

Distribution of the Wagering Dollar

The following is a breakdown of the distribution of all monies wagered at both Hoosier Park and Indiana Grand and their satellite facilities:

*Pari-Mutuel Tax - includes satellite facility tax.

*Breakage - the difference in the rounding off of pari-mutuel payoffs.

Total State Revenue \$ 3,067,571

The direct revenue received by the State of Indiana exceeded the cost of regulation. Indiana Horse Racing Commission operating expenditures for calendar year 2015 were \$1,539,777.

Occupational Licensing

Pursuant to IC 4-31-6 and 71 IAC 5-1-1, all persons participating in pari-mutuel racing under the jurisdiction of the Commission are required to be licensed. The licensing process is the backbone of the Commission's regulatory efforts. Each prospective licensee is fingerprinted.

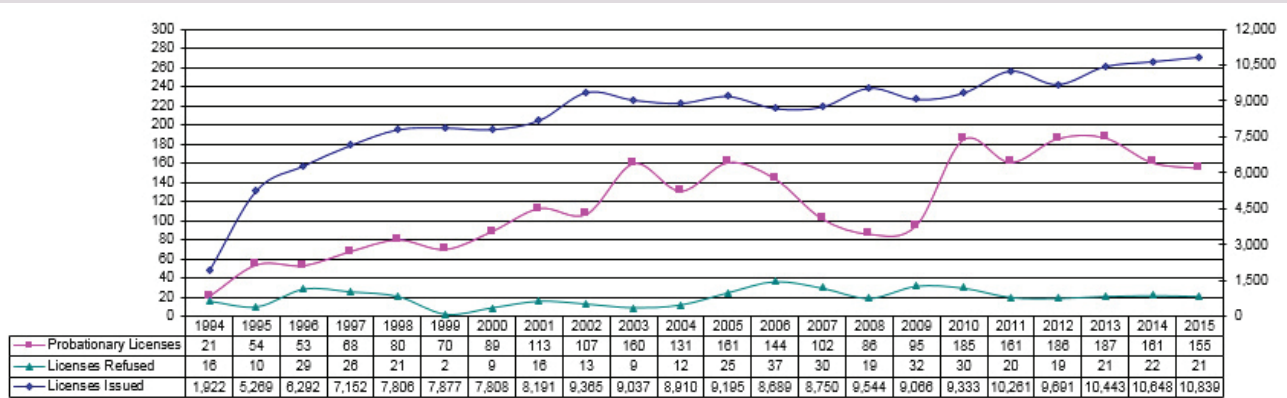

The Federal Bureau of Investigation (FBI) provides the Commission with criminal histories of all applicants. The Commission may refuse or deny the application for licensure of any person whose criminal or racing violation record is contrary to the public's best interest.

Equine Drug Testing

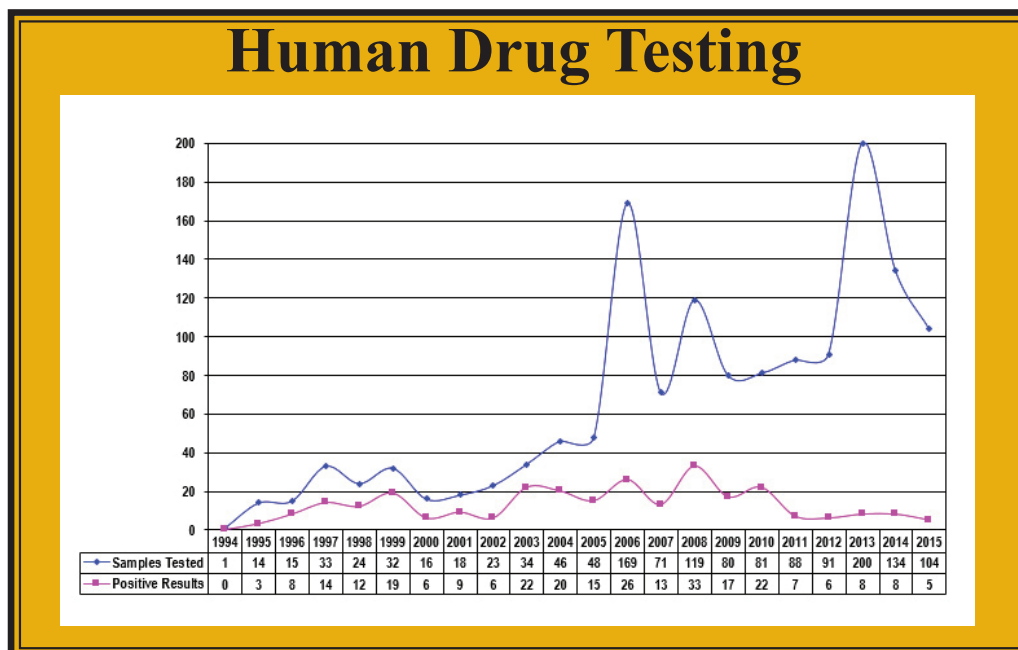

Pari-mutuel horse racing can succeed as a legitimate major league sport only if its races are perceived by the wagering public to be honest, competitive contests, free from manipulation by man or drugs. The Commission's drug detection program is one of the nation's most comprehensive and its laboratory, one of the most respected in the racing industry.

Tuesdail Laboratory in Tustin, California, served as the primary testing laboratory for the Indiana Horse Racing Commission until May 13, 2015, at which time Industrial Laboratory in Denver, Colorado, took over as the Commission's primary laboratory. For each positive test, the offending horse was disqualified and placed last. In accordance with the pari-mutuel statute, all purse money earned is ordered returned and redistributed.

Competitive Status

The competitive status of Indiana's horse racing industry can best be determined by comparing purses offered by Indiana tracks with tracks racing the same breed in adjacent states. The average daily purse distribution is the best indicator, followed by the track's total purse distribution. The average daily purse distribution is a better indicator because a track's total purse offerings can be diluted by an over abundance of race dates which can lead to inferior or low quality racing.

Comparison of Indiana with its Neighboring States

Standardbred Racing

Indiana's Standardbred industry is a regional powerhouse. As shown below, in 2015 Hoosier Park ranked #1 among tracks in surrounding states in total purse distribution, and #2 in average daily purse distribution. Nationally, Hoosier Park is an elite track – ranking 5th in daily average purses and total purse distribution.

Quarter Horse Racing

Comparison of Indiana Nationally

Indiana's Quarter Horse racing industry is unique in both its size and location. Indiana Grand averages slightly under 200 races per year, which makes its Quarter Horse racing program relatively small. But it offers one of the most lucrative stakes and overnight purse programs in the country, which is why Indiana racing remains in the top 10. There are few racing opportunities in the Midwest, as Quarter Horse racing in the United States is concentrated primarily in the West and Southwest. Consequently, the comparisons made below are with all U.S. tracks.

Breed Development

Overview

Pursuant to IC 4-31-11, breed development funds have been established to promote the breeding of horses while stimulating the agri-business sector of the state's economy.

Historically, breed development funds have consisted of breakage (the difference in the rounding off of pari-mutuel payoffs), outs (all uncashed tickets), and riverboat admissions tax allocation. This same funding mechanism has been in place until racinos opened at Indiana's two racetracks in June 2008.

At this time, riverboat allocation was replaced by an allocation from slot machine wagering at racinos in accordance with 71 IAC 4-35-7-12.

By visiting the commission website (www.in.gov/hrc), information can be obtained regarding eligibility requirements for racing awards such as those described in the charts below. There are detailed instructions on how to register a foal/horse, what applications to use and what type of deadlines apply.

Racino Slot Revenue

The 2007 Indiana Legislature approved slot machine wagering at the State's two pari-mutuel racetracks in accordance with 71 IAC 4-35-7-12. Racino slot revenue began replacing riverboat revenue June 2008. These funds are distributed to various segments of the racing industry in accordance with Commission rule IC 4-35-7-12. Detailed racino slot revenue distribution is noted in the chart below. For detailed historical information on slot revenue, visit our website at www.in.gov/hrc/2443.htm.
