Indiana Office of Technology
Powering a State that Works

SERVER PURCHASE STANDARDS
Standard Number: Operations (ITS) 00-4

Re-issued
Effective Date: 04/01/2007

1. Purpose

   Define standard vendor and hardware model for all Intel processor server purchases

2. Revision History

Revision Date	Revision Number	Change Made	Reviser
04/01/2007	01	Defined Policy	Jim Rose
05/17/2007	02	General Revisions	R. Bauchle
08/18/2008	03	General Revisions	M. Gross
05/31/2013	04	General Revisions	M. Gross
09/17/2015	05	Modified for 2014 QPA update	B. Wuchner

3. Persons, Groups, Systems Affected

   All agencies within the Executive Branch of Indiana State Government

4. Policy

   The State of Indiana has selected Hewlett Packard Enterprise as the standard for Intel processor-based server hardware running Microsoft Windows or Red Hat Enterprise Linux. For specific scenarios like SAP Hana or VMware vSphere, the Cisco Systems Unified Computing Solution may be used.

   The current support standard configurations are:

   HP Proliant DL380, Dual processor, 2U rack mountable, Config To Order (CTO)
   HP Proliant ML350, Dual processor, tower form factor, Config To Order (CTO)
   Cisco UCS B-series blades, Config-To-Order (CTO)

   At this time, the State of Indiana does not authorize the use of AMD processors in server platforms.

5. Responsibilities

   5.1. Agency – select from standard
   5.2. Indiana Office of Technology – maintain standard

6. Definitions/References

   Statutory Authority IC 4-13.1
