Products bearing the Wisconsin state inspection shield on the immediate package are not subject to this recall. The recalled products were distributed for institutional and retail sales nationwide as well as sold over the internet.

The problem was discovered by FSIS personnel after receiving information about the product being in commerce. The company began using new packaging labels with the CIS program USDA Mark of Inspection before implementing all federal requirements that would authorize use of the USDA Mark of Inspection through the CIS program. Wisconsin state inspection personnel were not aware of the application of labels, and have been assisting FSIS in the investigation of this issue.

FSIS and the company have received no reports of illness due to consumption of these products. Anyone concerned about a reaction should contact a healthcare provider.

FSIS routinely conducts recall effectiveness checks to verify recalling firms notify their customers of the recall and that steps are taken to make certain that the product is no longer available to consumers.

Consumers and media with questions about the recall should contact Scott Allen Buer, Owner, at (414) 238-4874.

Consumers with food safety questions can “Ask Karen,” the FSIS virtual representative available 24 hours a day at AskKaren.gov or via smartphone at m.askkaren.gov. “Ask Karen” live chat services are available Monday through Friday from 10 a.m. to 4 p.m. ET. The toll-free USDA Meat and Poultry Hotline 1-888-MPHotline (1-888-674-6854) is available in English and Spanish and can be reached from 10 a.m. to 4 p.m. (Eastern Time) Monday through Friday.
