- Early Childhood Meeting Place usage data report
- Indiana Maternal Child and Health Care Needs Assessment
- Sunny Start Meeting Assessment

### **Updates**

- Mary Weber, Director of Maternal and Child Health, shared her background as a Registered Nurse, an advocate, and administrator in a various roles across Indiana and nationally.
- Project LAUNCH was shared at our April meeting, the SAMHSA grant announcement came at the end of September, Indiana was not chosen for this cycle. Thank you to all of our partners for their tremendous efforts. Indiana may resubmit in the future; core partners are encouraged to consider how to best submit in the future.
- Covering Kids and Families: on August 6<sup>th</sup> the Sunny Start team met with Covering Kids and Families to determine where overlap existed between these projects; it was decided that CKF would have representation serve on the Medical Home/ Access to Health Insurance Committee (which has merged from Sunny Start with the CISS project) and David Roos would be given time at each Core Partners meeting to provide and update. David shared the data picture related to Hoosier Healthwise. The question was raised whether the data is available with minority break out. This data is not currently available. Missy Hahn will update us on the timeline of when that type of information will be available.
- Subcommittee updates:
  - Evaluation committee will meet quarterly a month prior to each core partners meeting. This committee is accepting new members.
  - Family Advisory Committee will meet on November 5<sup>th</sup> and will focus on the Foster Care Health Care Wellness Passport Addendum.
    - Promotion of these materials is forthcoming
- Pat Sanchez will be sending a report that will go out to Core Partners for recommendations that focus on Early Childhood issues.
- The Sunny Start website is currently in the midst of revisions.

### **Guide by Your Side**

Gayla Hutsell and Lisa Kovacs shared an update on the launch of this program in Indiana. The presentation is attached. Additional information can be found at [www.hearing.IN.gov](http://www.hearing.IN.gov). It was noted that this represented significant growth and achievement in a short amount of time.

### **Priority for State of Hoosier Child**

Core Partners were asked to identify priorities for data elements to be included in the State of the Hoosier Child Report. Data elements identified by the evaluation committee were reviewed and Core Partners recommended

some additional indicators. The Evaluation Committee will review the recommendations and will identify the core set of indicators that will be included at their next meeting in December.

### **Core Partner Updates**

- The results of the Zero to Three PCAN (report included in packet) initiative were discussed. Forty Indiana trainers provided training to childcare providers in this prevention model. Zero to Three reported that Indiana excelled in this area, and exceeded the identified goals.
- Early Childhood Meeting Place (spreadsheet in the packet and attached)- Michael Conn Powers reviewed utilization data for the website. Michael indicated that he welcomes suggestions on changes to the Early Childhood Meeting Place. Michael also suggested that Core Partners link their website to the Early Childhood Meeting Place site to increase awareness and usage.

### **Needs Assessment**

Core Partners completed the Indiana State Department of Health needs assessment tool.

### **Next Steps**

Core Partners who were not in attendance will be asked to give input on State of the Hoosier Child Priorities.
