Indiana State Trauma Care Committee  
Designation Subcommittee  
Indiana State Department of Health  
2 N. Meridian St.  
Indianapolis, IN 46204

Dear Trauma Care Committee and Designation Subcommittee,

This letter is to formally ask that Franciscan Health Indianapolis have an extension to the "in the ACS verification process" process.

As you may recall, our center was recognized as "in the process" at the beginning of the COVID-19 pandemic. The American College of Surgeons (ACS) suspended all site visits at that time. Our consultation visit, originally scheduled for February 2021, has been pushed back to February 2022. We are asking for an extension to the May 14, 2022 deadline by a year to make the appropriate improvements needed after a consultation visit before having our verification visit.

Please see the enclosed communication between Franciscan Health Indianapolis and the ACS regarding our site visit.

Thank you for your consideration.

Sincerely,

Christy Claborn, RN  
Trauma Program Manager

Mark Edwards, MD  
Trauma Medical Director

Hi Christine,

\* I am currently finishing up the scheduling for September 2021 and will soon move on to the last quarter visits of 2021. \* I see that your center's consultation visit will be re-scheduled in February 2022. \* Right now I have the dates of Feb. 8-9. Are you and your center good with this date? If not, please forward me a date that would work best for you and your team.

Once the VRC review team is secured for your visit, I'll send a confirmation email approximately 90 days before your visit. In the meantime, if you want to look at the virtual site visit documents to help you prepare for your visit, you can go to:

<https://www.facs.org/quality-programs/trauma/tqp/center-programs/vrc/virtual-site-visits>

Please let me know if you have any questions.

Thank you,

Rachel Sanchez

Hello Rachel,

I am following up to see if there is a tentative time frame that the consultation visits will be rescheduled. My facility, Franciscan Health Indianapolis, was scheduled for a consultation visit in February 2021.

When the consultation visits are rescheduled, how much time will we have between the time we reschedule to the actual "visit" (virtual or in-person).

Thank you,  
Christy

Hi Christine,

Your reporting period can stay the same if you choose. There have been some centers who have changed their reporting year to reflect a more current date. It is your choice. However if you decide to change it, please let us know.

Thank you,

Rachel Sanchez

Thank you Rachel,

Will our reporting period change to reflect the new visit date or do we keep the same reporting period, even though we are not currently verified? Our consultation visit reporting period is Dec 1, 2019 to Nov 30, 2020.

Best,  
Christy

Hi Christy,

Thank you for your email. We have not started scheduling onsite visits. We have had 3 reverification "virtual visits" with pilot centers and are working on the next phase of pilot visits using different types of visits such as visits for new centers, center changing levels etc... Once these pilots have all been complete and approved we'll move forward with the scheduling. Your center's visit will not take place in February. We are working on the plan on how to prioritize scheduling centers for their visits. More communication will be sent as soon as we know more.

In the meantime, if you have any questions feel free to reach out to me.

Thank you,

Rachel Sanchez

Good Afternoon Christine,

I hope this email finds you well. Regarding your consultation visit, there is a possibility that it may be pushed back to the following year, but we can't be 100% sure until we begin the process of rescheduling centers that were on track for visits this year. With that being said, because your requested visit dates are very early on in \* the year of 2021, we may still be able to confirm those dates for you...it will largely depend on \* availability. Please know that we are considering all options and will work to find the best solution overall. I'm sorry that I don't have more information for you, but as mentioned, there will be more to come once we get into the scheduling phase. As always, please let us know should you need anything further.

Best,

Kendra Marbly  
ACS - Trauma Verification Team

Subject: Consultation visit 2021

Hello,

My facility has a consultation visit scheduled for February 2021. This was not addressed in the Q&A webinar that was published this morning on YouTube.

\* I have not received any further communication that my consultation site visit time has changed. I am \*  
\* confirming that my site visit is still planned for February 2021. \*

Thank you,  
Christy

Hospitals that were granted status as an "in the process" Level III Trauma Center are asked to provide sufficient documentation for the Indiana State Department of Health (ISDH) and the Indiana Department of Homeland Security to demonstrate that your hospital continues to comply with the following requirements:

<p><b>1. Trauma Medical Director.</b> The Trauma Medical Director must maintain an appropriate level of trauma-related extramural continuing medical education (Sixteen (16) hours annually or forty-eight (48) hours over three (3) years).</p>	
<p>Has the Trauma Medical Director maintained sixteen (16) hours of trauma related extramural continuing medical education since granted "in process" Level III Trauma Center status?</p> <p><i>Provide the Trauma Medical Director's certificates for continuing medical education events since granted "in process" Level III Trauma Center status.</i></p>	<p><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p>
<p><b>2. Submission of trauma data to the State Registry.</b> The hospital must be submitting data to the Indiana Trauma Registry following the Registry's data dictionary data standard within thirty (30) days prior to application submission to ISDH and at least quarterly thereafter.</p>	
<p>Has your hospital submitted trauma data to the State Registry quarterly since granted "in process" Level III Trauma Center status?</p>	<p><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p>
<p><b>3. Trauma Registrar.</b> Evidence must be submitted that the trauma registrar has attended two courses within twelve (12) months of being hired.</p>	
<p>1. American Trauma Society's Trauma Registrar Course or equivalent provided by state trauma program.</p>	<p><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p>
<p>AND</p>	
<p>2. Association of the Advancement of Automotive Medicine's Injury Scaling Course.</p>	<p><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p>
<p><b>4. Trauma Surgeon response times.</b> Evidence must be submitted that response times for the Trauma Surgeon are as defined by the Optimal Resources document of the American College of Surgeons.</p>	
<p>Have your Trauma Surgeon's maintained a response time as defined by the Optimal Resources document of the American College of Surgeons since granted "in process" Level III Trauma Center status?</p> <p><i>Provide your hospital's Trauma Surgeon response times including number of responses, response times and percentage within the required timeframe per Trauma Surgeon (documentation tool attached).</i></p> <p><i>Provide your hospital's monthly Trauma Surgeon physician call schedules since granted "in process" Level III Trauma Center status</i></p>	<p><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p>
<p>Have the Trauma Surgeons maintained sixteen (16) hours of trauma related extramural continuing medical education since granted "in process" Level III Trauma Center status?</p> <p><i>Provide the Trauma Surgeons' certificates for continuing medical education events since granted "in process" Level III Trauma Center status.</i></p>	<p><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p>
<p><b>5. Diversion policy.</b> The hospital must not be on diversion status more than 5% of the time. The hospital's documentation must include a record for the previous year showing dates and length of time for each time the hospital was on diversion.</p>	
<p>Has your hospital maintained a diversion status of less than 5% of the time since granted "in process" Level III Trauma Center status?</p> <p><i>Provide your hospital's diversion documentation showing reason for diversion and dates and length of time for each time the hospital was on diversion (documentation tool attached).</i></p>	<p><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p>
<p><b>6. In-house Emergency Department physician coverage.</b> The Emergency Department must have a designated emergency physician director, supported by an appropriate number of additional physicians to ensure immediate care for injured patients.</p> <p><b>Neurosurgery, if applicable.</b> The hospital must have a plan that determines which type of neurologic injuries should remain at the facility for treatment and which types of injuries should be transferred out for higher levels of care. If neurologically injured patients are admitted for at your facility, please provide your hospital's Neurosurgery physician call schedules since granted "in process" Level III Trauma Center status.</p> <p><b>Orthopedic Surgery.</b> There must be an orthopedic surgeon on call and promptly available twenty-four (24) hours per day.</p> <p><b>Critical Care Physician coverage.</b> Physician coverage of the ICU must be available within thirty (30) minutes, with a formal plan in place for emergency. There must be emergency coverage in-house twenty-four (24) hours per day.</p>	
<p>Have your Emergency Department have the appropriate number of physicians to ensure immediate care for injured patients?</p>	<p>Emergency Medicine: <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p>
<p>If neurologically injured patients are admitted for at your facility, please provide your hospital's Neurosurgery physician call schedules since granted "in process" Level III Trauma Center status.</p>	<p>Neurosurgeons: <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p>
<p>Have your Orthopedic Surgeons and Critical Care Physicians maintained coverage twenty-four (24) hours per day since granted "in process" Level III Trauma Center status?</p>	<p>Orthopedic Surgeons: <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p>
<p><i>Provide your hospital's monthly Emergency Medicine, Orthopedic and Critical Care physician call schedules since granted "in process" Level III Trauma Center status.</i></p>	<p>Critical Care Physicians: <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p>

7. **Operational process performance improvement committee.** There must be a trauma program operational process performance improvement committee that meets at least quarterly.

Has your Trauma Program Operational Process Performance Committee met at least quarterly since granted "in process" Level III Trauma Center status?  Yes  No

*Provide your hospital's committee meeting dates and times along with a roster of the committee members and their attendance (documentation tool attached).*

8. **Trauma Peer Review Committee.** There must be a multidisciplinary peer review committee with participation by the trauma medical director and representatives from General Surgery, Orthopedic Surgery, Neurosurgery, Emergency Medicine, and Anesthesia to improve trauma care by reviewing selected deaths, complications, and sentinel events with the objectives of identification of issues and appropriate responses. This committee must meet at least quarterly.

Has your Trauma Peer Review Committee met at least quarterly since granted "in process" Level III Trauma Center status?  Yes  No

Have the trauma medical director and representatives from General Surgery, Orthopedic Surgery, Neurosurgery, Emergency Medicine, and Anesthesia attended your multidisciplinary peer review committee at least 50% of meetings since granted "in process" Level III Trauma Center status?

*Provide your hospital's committee meeting dates and times along with a roster of the committee members and their attendance (documentation tool attached).*

Trauma Medical Director:  Yes  No

General Surgeon:  Yes  No

Orthopedic Surgeon:  Yes  No

Neurosurgeon:  Yes  No

Emergency Medicine:  Yes  No

Anesthesia:  Yes  No

9. **Trauma Volumes.** Complete the following tables. Do not include DOA's and direct admits.

Injury Severity and Mortality					
ISS	Total Number of Admissions	Number of Deaths from Total Trauma Admissions	Percent Mortality from Trauma Admissions	Number Admitted to Trauma Service	Number of Trauma Patients Transferred Out
0-9	483	13	2.7%	10	66
10-15	96	5	5.2%	8	19
16-24	18	1	5.6%	3	9
≥ 25	19	6	31.6%	2	7
Total	616	25	4.1%	23	101

Total Number of Trauma Patients Transferred Out	Average Time to Transfer (Arrival to Transfer)	Total Number of Trauma Patients Transferred after 120 Minutes	Total Number of Trauma Patients Admitted to Your Facility with an ISS >25
101	228 minutes	86	19

### Franciscan Health Indianapolis Trauma Peer Review Attendance 2020 - 2021

Total Number of Trauma Peer Review Committee meetings held:		9		*excused per ACS guideline		1. Please place total number of Trauma Peer Review Committee meetings held in B1 field. 2. Place all meeting dates in columns C2 through H2, using only the number of columns appropriate for your facility and deleting excess columns - i.e. if you only had quarterly meetings, then enter dates in C2 through F2) 3. Then list all committee members in column A with their attendance recorded in appropriate columns. 4. The overall attendance will automatically calculate in column O and overall percentage in column P.

## Trauma Medical Director

### Requirements:

1. Trauma Medical Director. The Trauma Medical Director must maintain an appropriate level of trauma-related extramural continuing medical education (Sixteen (16) hours annually or forty-eight (48) hours over three (3) years).

---

Has the Trauma Medical Director maintained sixteen (16) hours of trauma related extramural continuing medical education since granted "in process" Level III Trauma Center status?  Yes  No

*Provide the Trauma Medical Director's certificates for continuing medical education events since granted "in process" Level III Trauma Center status.*

---

### Evidence:

1. Edwards educational certificates

AIS Certification Board

March 29, 2019

MICHAEL ALAN CARROLL

Dear MICHAEL ALAN CARROLL:

Congratulations! You have passed the Certification Examination for AIS Coding Specialists. You are now entitled to use the letters CAISS after your name and are recognized among health care professionals as a Certified AIS Specialist.

It is the belief of the AIS Certification Board that it is vital for those engaged in AIS coding to maintain current knowledge of injury coding and its rules and guidelines. Consequently, your certification will remain in effect for five years. Before the end of this five year period, your certification may be renewed by successfully completing the Certification examination again. You will receive your certificate within the next 4-6 weeks. If you would like notification of your achievement forwarded to a supervisor or administrator of your program, please send their names, title and address to me and I will be happy to inform them.

Again, congratulations and best wishes for your continued success.

Sincerely,

Amy L. Brammer, MSN, RN, TNS, CEN, CSTR, CAISS  
Chair, AIS Certification Board

AIS Certification Board

0373 2734

Certification Examination for AIS Coding Specialists  
March 2019

CONGRATULATIONS. The Professional Testing Corporation is pleased to inform you that you have passed the Certification Examination for AIS Coding Specialists with a score of 226 of 250. Passing score as set by AISC.B is 188.

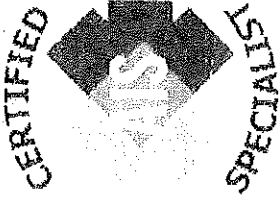

Your Area Scores	
Anatomy	50 of 50
Medical Terminology - Pathology & Injury	24 of 25
Coding Fundamentals	52 of 63
Identification and Coding of Injury Descriptors	100 of 100

Report prepared for:  
CARROLL, MICHAEL ALAN

*This breakdown is intended only to provide feedback on the general performance in each domain area and should only be used as a guide. By comparing your scores in each area to the maximum possible score in each area, it may help assess strengths and weaknesses. Area scores are not used to determine pass/fail decisions. The examination is designed to provide a consistent and precise determination of your overall performance and is not designed to provide complete information regarding your performance in each area.*

PROFESSIONAL TESTING CORPORATION • 1350 BROADWAY • SUITE 800 • NEW YORK, NY 10018

## EDUCATION

### **Indiana University, Bloomington, IN**

*Master of Public Health*  
Honors: Dean's List (2016)

May 2017

### **Indiana University, Bloomington, IN**

*Bachelor of Science in Community Health, Minor in Psychology*  
Honors: Indiana Founders Scholar 2014, Dean's List (2013, 2014)

August 2015

## PROFESSIONAL EXPERIENCE

### **Franciscan Health (Trauma Analyst)**

August 2017 – present

- Assess daily ED and Inpatient logs to identify patients meeting criteria designated by the ITN and NTDB for Trauma Registry inclusion
- Manage and maintain the hospital's Trauma Registry software, ensuring the routine installment of updates and patches released by the software provider. Troubleshoot any issues that arise within the Trauma Registry and Report Writer software
- Utilize the hospital's Trauma Registry software for data abstraction in accordance to the requirements established by the ITN and NTDB data dictionaries
- Compile abstracted quarterly data into compatible and validated submission files through the Vendor Aggregator to be submitted to the NTDB and Indiana State Trauma Registry
- Construct reports from abstracted data using Report Writer software. Display the extracted data in a clean and logical presentation in Excel
- Utilize built reports for data validation and presenting data requested by the Trauma Program Manager or other medical staff
- Build and imbed additional customized fields into the Trauma Registry to capture data that further assists our trauma PIPS program
- Collaborate with trauma team members to facilitate the development and transition of our hospital to a level 3 trauma center

### **Indiana University Lab (*Graduate Research Assistant*)**

May 2016 – June 2017

- Led research team in the investigation of *Trypanosoma cruzi* and identification of its six discrete phylogenetic typing units within extracted DNA from positive *T. cruzi* tissue samples of sylvatic animals in Texas via PCR and gel electrophoresis
- Performed PCR assays in the laboratory setting regarding cutaneous leishmaniasis diagnosis and vaccine development
- Created templates and entered mass datasets in both English and Spanish via SPSS software regarding the adverse effects of air pollution on cardiovascular health of children and families in Ecuador
- Managed order placements and communication for lab equipment and machinery from various vendors of Indiana University
- Performed data analysis for infectious and chronic disease research
- Directed weekly seminars presented by research assistants and PhD students from our Public Health department
- Assisted a PhD student in managing and organizing their research project concerning indoor air pollution and cardiorespiratory effects among the disadvantaged population in Bloomington, Indiana

Publications

Leading Author, "Cutaneous Leishmaniasis Knowledge, Attitudes and Practices (KAP) Survey of an Endemic Rainforest Population in Northern Ecuador"

- Presented on April 8<sup>th</sup> in Washington DC

Co-Author, "Diagnosis of Cutaneous Leishmaniasis using Microscopic Detection and Molecular-based PCR assay techniques"

- Presented on April 8<sup>th</sup> in Washington DC

**IU Health Wipperman Occupational Health Clinic (Intern)**

May 2015 - August 2015

- Designed complete health care information files by researching available patient information
- Implemented use of the patient information file with wellness coaches
- Researched and helped update post bloodborne pathogen protocols
- Gained understanding of workplace injury care, post offer physical exams, DOT evaluations, firefighter evaluations, drug and alcohol testing regulations, and ergonomic assessments

Indiana State Trauma Care Committee  
Designation Subcommittee  
Indiana State Department of Health  
2 N. Meridian St.  
Indianapolis, IN 46204

Dear Trauma Care Committee and Designation Subcommittee,

This letter is to formally ask that Franciscan Health Indianapolis have an extension to the "in the ACS verification process" process.

As you may recall, our center was recognized as "in the process" at the beginning of the COVID-19 pandemic. The American College of Surgeons (ACS) suspended all site visits at that time. Our consultation visit, originally scheduled for February 2021, has been pushed back to February 2022. We are asking for an extension to the May 14, 2022 deadline by a year to make the appropriate improvements needed after a consultation visit before having our verification visit.

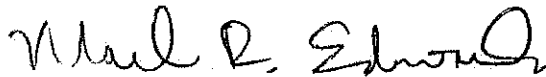

Please see the enclosed communication between Franciscan Health Indianapolis and the ACS regarding our site visit.

Thank you for your consideration.

Sincerely,

Christy Claborn, RN  
Trauma Program Manager

Mark Edwards, MD  
Trauma Medical Director

Hi Christine,

I am currently finishing up the scheduling for September 2021 and will soon move on to the last quarter visits of 2021. ✘ I see that your center's consultation visit will be re-scheduled in February 2022. ✘ Right now I have the dates of Feb. 8-9. Are you and your center good with this date? If not, please forward me a date that would work best for you and your team.

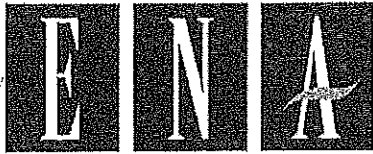

Once the VRC review team is secured for your visit, I'll send a confirmation email approximately 90 days before your visit. In the meantime, if you want to look at the virtual site visit documents to help you prepare for your visit, you can go to:

<https://www.facs.org/quality-programs/trauma/tqp/center-programs/vrc/virtual-site-visits>

Please let me know if you have any questions.

Thank you,

Hello Rachel,

I am following up to see if there is a tentative time frame that the consultation visits will be rescheduled. My facility, Franciscan Health Indianapolis, was scheduled for a consultation visit in February 2021.

When the consultation visits are rescheduled, how much time will we have between the time we reschedule to the actual "visit" (virtual or in-person).

Thank you,  
Christy

Hi Christine,

Your reporting period can stay the same if you choose. There have been some centers who have changed their reporting year to reflect a more current date. It is your choice. However if you decide to change it, please let us know.

Thank you,

Thank you Rachel,

Will our reporting period change to reflect the new visit date or do we keep the same reporting period, even though we are not currently verified? Our consultation visit reporting period is Dec 1, 2019 to Nov 30, 2020.

Best,  
Christy

Hi Christy,

Thank you for your email. We have not started scheduling onsite visits. We have had 3 reverification "virtual visits" with pilot centers and are working on the next phase of pilot visits using different types of visits such as visits for new centers, center changing levels etc... Once these pilots have all been complete and approved we'll move forward with the scheduling. Your center's visit will not take place in February. We are working on the plan on how to prioritize scheduling centers for their visits. More communication will be sent as soon as we know more.

In the meantime, if you have any questions feel free to reach out to me.

Thank you,

Rachel Tanchez

Good Afternoon Christine,

I hope this email finds you well. Regarding your consultation visit, there is a possibility that it may be pushed back to the following year, but we can't be 100% sure until we begin the process of rescheduling centers that were on track for visits this year. With that being said, because your requested visit dates are very early on in \* the year of 2021, we may still be able to confirm those dates for you...it will largely depend on \* availability. Please know that we are considering all options and will work to find the best solution overall. I'm sorry that I don't have more information for you, but as mentioned, there will be more to come once we get into the scheduling phase. As always, please let us know should you need anything further.

Best,

Kendra Marbly  
 ACS - Trauma Verification Team

## Trauma Surgeon Response Times

### Requirement:

4. Trauma Surgeon response times. Evidence must be submitted that response times for the Trauma Surgeon are as defined by the Optimal Resources document of the American College of Surgeons.

---

Have your Trauma Surgeon's maintained a response time as defined by the Optimal Resources document of the American College of Surgeons since granted "in process" Level III Trauma Center status?  Yes  No

*Provide your hospital's Trauma Surgeon response times including number of responses, response times and percentage within the required timeframe per Trauma Surgeon (documentation tool attached).*

*Provide your hospital's monthly Trauma Surgeon physician call schedules since granted "in process" Level III Trauma Center status*

---

Have the Trauma Surgeons maintained sixteen (16) hours of trauma related extramural continuing medical education since granted "in process" Level III Trauma Center status?  Yes  No

*Provide the Trauma Surgeons' certificates for continuing medical education events since granted "in process" Level III Trauma Center status.*

---

### Evidence:

1. Individual response times
  - a. Edwards
  - b. King
  - c. Libke
  - d. Murage
  - e. Seudeal
  - f. Wanko Mboumi
2. Indy Southside Surgical Call Schedules
3. Educational Certificates
  - a. Edwards
  - b. King
  - c. Libke
  - d. Murage
  - e. Seudeal
  - f. Wanko Mboumi

Surgeon Name	Number of Highest Level Activations	Number with Surgeon Response within Required Timeframe	Percentage within Required Response timeframe
Edwards	6	6	100%
King	4	4	100%
Libke	3	3	100%
Murage	4	3	75%
Seudeal	6	6	100%
Wanko	7	7	100%

# Continuing Medical Education Certificate

**Mark Edwards**

has participated in the educational activity titled:

**TCAA Virtual Trauma Medical Director Course - December 3-**

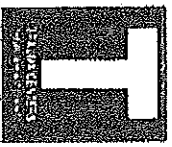

**4, 2020**

On

**December 04, 2020**

The Trauma Center Association of America is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

This activity was designed for a maximum of 14.5 AMA PRA Category 1 Credits™. I participated in 14.5 hours. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

**TRAUMA CENTER**  
Association of America  
ADVOCACY • FINANCE • OPERATIONS

146 Medical Park Road, Suite 208,  
Mooresville, NC 28117

  
Christoph Kaufmann, MD, FACS  
Medical Director

Nursing and other health care licensing boards will often accept attendance at an activity approved for AMA PRA Category 1 Credits™ if the topics are within the healthcare professional's scope of practice. There is no guarantee that attendance at this activity will be accepted by your licensing board to fulfill your CE requirements. You are responsible for verifying with your licensing board.

**Franciscan HEALTH**

Indianapolis • Mooresville • Carmel

Department of Medical Education

Certifies that

Mark Edwards

Has participated in the live activity titled:  
Thrombotic Manifestations of COVID 19  
Indianapolis, IN

| May 13, 2020

*And is awarded 2 AMA PRA Category 1 Credit(s)™.*

Richard D. Feldman, M.D.  
Director of Medical Education  
Franciscan Health Indianapolis

**AMERICAN COLLEGE OF SURGEONS**  
**DIVISION OF EDUCATION**  
**CONTINUING MEDICAL EDUCATION CERTIFICATE**  
**Donald King**

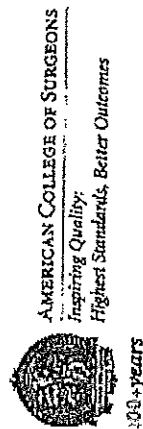

Has participated in the educational activity titled:

Virtual 2020 Clinical Congress  
October 3-7, 2020

The American College of Surgeons is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The American College of Surgeons designates this Other activity (virtual - live and enduring) for a maximum of 21.5 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Of the AMA PRA Category 1 Credits™ listed above a maximum of 0.00 credits meet the requirements for Self-Assessment.

Ajit K. Sachdeva, MD, FACS, FRCSC, FSACME  
Director, Division of Education  
*Blended Surgical Education and Training for Life®*

A. Total AMA PRA Category 1 Credits™ claimed: 42.00

B. Of the credits claimed in line A, the Self-Assessment credits earned were: 0.00

Acute Lung Injury Ventilator Management (Trauma CME)

and is awarded 1 hour of AMA Category 1 Credit for Physicians  
or 1 Continuing Education Contact Hour for RNs

February 11, 2021

Date

Credit Designation: This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME), the joint sponsorship of EB Medicine and Metasyn LLC. EB Medicine is accredited by the ACCME to provide continuing medical education for physicians. EB Medicine designates this activity for a maximum of 1 AMA PRA Category 1 Credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Target Audience: This activity is designed for emergency medicine physicians and critical care physicians. The purpose of this activity is to provide attendees with the evidence-based practice information, specifically in the areas of emergency critical care, ultrasound, and airway management. Faculty Disclosure: It is the policy of EB Medicine to ensure objectivity, balance, independence, transparency, and scientific rigor in all CME-sponsored educational activities. All faculty participating in the planning or implementation of a sponsored activity are expected to disclose to the audience any relevant financial relationships and to abstain from any conflict of interest that may arise from the relationships, in compliance with all ACCME Essential Standards and Guidelines, all faculty for this CME activity were asked to complete a full disclosure statement. This information was provided as part of the activity materials.

Credit Designation: This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of EB Medicine and Metasyn LLC. EB Medicine is accredited by the ACCME to provide continuing medical education for physicians. EB Medicine designates this podcast activity for a maximum of 1 AMA PRA Category 1 Credit™. Physicians should claim only the credit commensurate with the extent of their participation in this activity.  
Target Audience: This activity is designed for emergency medicine physicians and critical care physicians.  
Goals: The purpose of this activity is to provide attendees with the evidence-based practice information, specifically, the areas of emergency critical care, ultrasound, and airway management. Faculty Disclosure: It is the policy of EB Medicine to ensure objectivity, balance, independence, transparency, and scientific rigor in all CME-sponsored educational activities. All faculty participating in the planning or implementation of a sponsored activity are expected to disclose to the audience any relevant financial relationships and to assist in resolving any conflict of interest that may arise from the relationships. In compliance with all ACCME Essential Standards and Guidelines, all faculty for this CME activity were asked to complete a full disclosure statement. This information was provided as part of the activity materials.  
Commercial Support: None
