## 'Add Drug' Icon

The screenshot shows a dialog box titled "Add Drugs". At the top, there is a navigation bar with letters A through Z, numbers 1 through 9, and an "All" option. Below this is a search field labeled "Search:". The main area contains a table with a blue header "Description" and several rows of drug categories, each with a checkbox. The categories are:

Description		
<input type="checkbox"/> Amphetamine	<input type="checkbox"/> Cocaine	<input type="checkbox"/> Not Applicable
<input type="checkbox"/> Antidepressants (including Tricyclics)	<input type="checkbox"/> Ethanol	<input type="checkbox"/> Opiates (including Propoxyphene)
<input type="checkbox"/> Barbiturate	<input type="checkbox"/> Marijuana (cannabis)	<input type="checkbox"/> PCP
<input type="checkbox"/> Benzodiaz	<input type="checkbox"/> Methamphetamines	<input type="checkbox"/> Not Known / Not Recorded

At the bottom of the dialog box, there are two buttons: "Save" and "Close".

The "Add Drug" element is where drugs present in the patient's system are listed. When you click on the "Add Drug" button, it pulls up a list of drugs to choose from. Select multiple boxes that apply to the patient. When you are done selecting drugs, click the "Save" button to return to the screen you were working on.

Once you enter the information you know, click the "Search" button and it will generate a list of options. Clicking on the Service Name will populate that information in the run form.

# 'ICD-9 Code Lookup' Icon

The screenshot displays a software interface with two main sections: 'Diagnosis List' and 'Injury-Related Scores'.

**Diagnosis List:** This section features a table with columns for ICD-9 Code, Diagnosis Name, AIS Code, AIS Description, AIS Version, ISS Region, and Order. Below the table, there are input fields for 'ICD-9 Code' and 'AIS 05 Code', each with an 'ICD9 Lookup' button. At the bottom of this section are 'Add Diagnosis' and 'Save Order' buttons.

**Injury-Related Scores:** This section includes a table for 'AIS Based Injury Severity Scores by Diagnosis' with columns for ISS Region (Head, Face, Chest, Abdomen, Extremity, External, ISS) and rows for 'Calculated' and 'Manual' values. To the right, there are input fields for 'Age: 0' and 'RTS: 0', and 'Probability of Survival' (0% with 'Not Calculable' status) and 'Manual Probability of Survival' (0% with 'Not Calculable' status). A 'New Injury Severity Score: 0' field is also present. A note states '\* NISS is based on the diagnosis list entered above.' At the bottom right of this section are 'Save' and 'Save and Continue' buttons.

The "ICD-9 Code" element (TR21.1) lists the diagnoses related to all identified injuries. This is a national and state data element.

ICD-9 Codes are used to auto-generate additional calculated fields: Abbreviated Injury Scale (6 body regions), Injury Severity Score, Probability of Survival, and the New Injury Severity Score. Probability of Survival score will not appear if the patient's age, vitals, and injury are entered.

The "ICD9 Lookup" function helps the user find an ICD-9 Code.

The "ICD-9 Code" element (TR22.1) is defined as the operative and essential procedures conducted during the patient's hospital stay. This is a national and state data element.

The "Lookup" function helps you find an ICD-9 Code.

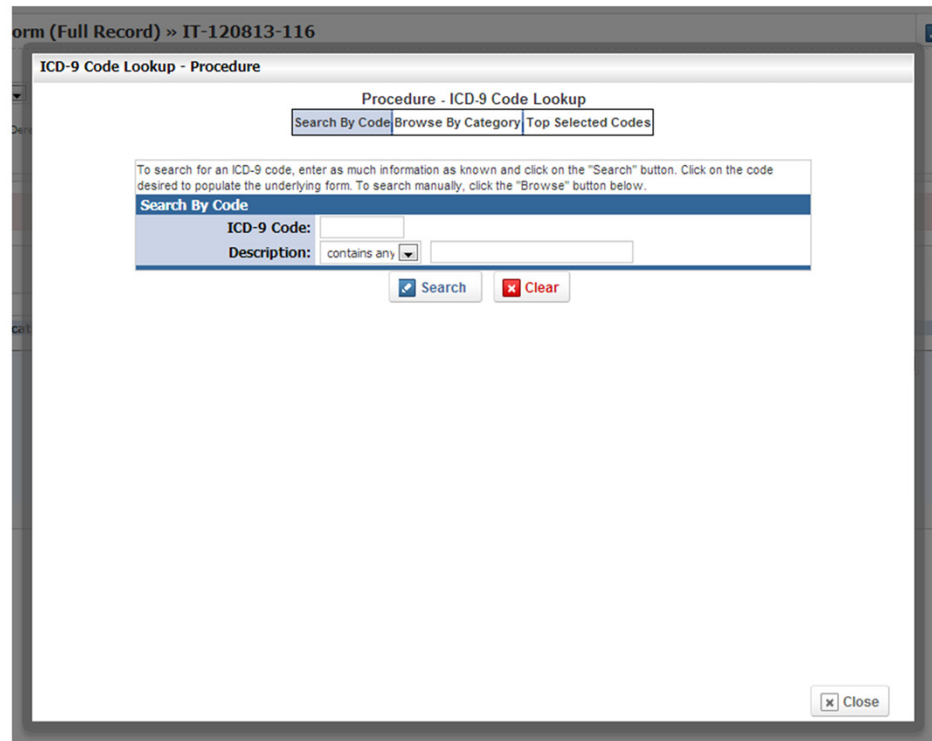

## 'ICD-9 Code Procedure Lookup' Icon (2)

The screenshot shows a web browser window with the title "Form (Full Record) » IT-120813-116". The main content area is titled "ICD-9 Code Lookup - Procedure" and contains a sub-section "Procedure - ICD-9 Code Lookup". At the top of this sub-section are three tabs: "Search By Code", "Browse By Category", and "Top Selected Codes". Below the tabs is a text box with the instruction: "To search for an ICD-9 code, select the corresponding information from the cascading drop down boxes until the submit button appears on the bottom of the form. Click 'Submit' to populate the underlying form." Underneath this instruction is a blue header "ICD-9 Procedure" and a dropdown menu with the text "-- Please Select --". At the bottom of the form are two buttons: a red "Clear" button and a "Close" button.

The "Lookup" function allows you to: 1) Search by code 2) Browse by Category or 3) Choose from the Top Selected Codes

When you click on "Browse by Category" select from a series of drop-down menus until you find the ICD-9 Code you are looking for. Use this search function if you are familiar with ICD-9 codes.

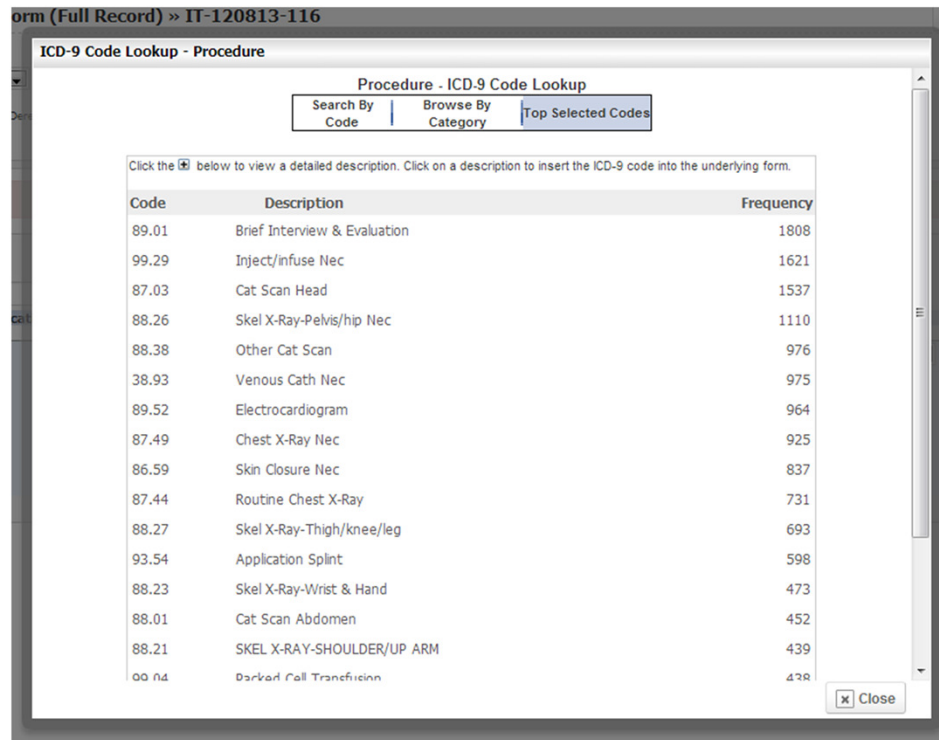

## 'ICD-9 Code Procedure Lookup' Icon (3)

The screenshot shows a web application window titled "ICD-9 Code Lookup - Procedure". At the top, there are three tabs: "Search By Code", "Browse By Category", and "Top Selected Codes". Below the tabs is a text box with instructions: "To search for an ICD-9 code, enter as much information as known and click on the 'Search' button. Click on the code desired to populate the underlying form. To search manually, click the 'Browse' button below." The "Search By Code" section is highlighted with a blue header. It contains two input fields: "ICD-9 Code:" and "Description:". The "Description:" field has a dropdown menu set to "contains any" and a text input field. Below these fields are two buttons: "Search" (with a magnifying glass icon) and "Clear" (with a red 'X' icon). A "Close" button is located in the bottom right corner of the window.

When you click on "Search by Code" type in key words if part of the code is known to help you find the ICD-9 Code you are looking for.

## 'ICD-9 Code Procedure Lookup' Icon (4)

The screenshot shows a web application window titled "ICD-9 Code Lookup - Procedure". At the top, there are three tabs: "Search By Code", "Browse By Category", and "Top Selected Codes", with the last one being selected. Below the tabs is a table with three columns: "Code", "Description", and "Frequency". The table lists various medical procedures and their corresponding frequencies. A "Close" button is located at the bottom right of the window.

Code	Description	Frequency
89.01	Brief Interview & Evaluation	1808
99.29	Inject/infuse Nec	1621
87.03	Cat Scan Head	1537
88.26	Skel X-Ray-Pelvis/hip Nec	1110
88.38	Other Cat Scan	976
38.93	Venous Cath Nec	975
89.52	Electrocardiogram	964
87.49	Chest X-Ray Nec	925
86.59	Skin Closure Nec	837
87.44	Routine Chest X-Ray	731
88.27	Skel X-Ray-Thigh/knee/leg	693
93.54	Application Splint	598
88.23	Skel X-Ray-Wrist & Hand	473
88.01	Cat Scan Abdomen	452
88.21	SKEL X-RAY-SHOULDER/UP ARM	439
90.04	Darked Call Transferrin	438

When you click on "Top Selected Codes", you are shown a list of the most frequent ICD-9 Codes used in the Indiana Patient Registry that can help you find the ICD-9 Code you are looking for.
