DATE: February 15, 2016
TO: All Local Health Departments
Attn: Chief Food Inspection Officer
FROM: *Kirstine Gaspin*
Laurie Kidwell, RRT Supervisor
Food Protection Program
SUBJECT: McCain Foods USA, Inc - RECALL [Food]

AFFECTED PRODUCT: McCain EARLY RISERS Potato, Egg, Cheese & Bacon Fritters

SUMMARY: Class I Recall; The recall has been initiated because the products may be contaminated with extraneous plastic materials.

The potato, egg, cheese, and bacon fritters were produced on Nov. 11, 2015. The following products are subject to recall:

- 1,681 cases bearing a batch code 1001487402 containing four 3.75-lb. plastic vacuum-packed packages containing "McCain EARLY RISERS Potato, Egg, Cheese & Bacon Fritters."

The products subject to recall bear establishment number "EST. 18846" inside the USDA mark of inspection.

These items were shipped to food service distributors in Indiana, Illinois, and Ohio.

SUGGESTED ACTION: Recommend notification of affected parties via phone, fax, or e-mail. Consumers with questions about the recall can contact Dana Hastings at (630) 857-4329. Furthermore, if any recalled products are found, notify this office at 317-233-8475.

Recall -- Firm Press Release

FDA posts press releases and other notices of recalls and market withdrawals from the firms involved as a service to consumers, the media, and other interested parties. FDA does not endorse either the product or the company.

WASHINGTON, Feb. 12, 2016 – McCain Foods USA, Inc., a Lisle, Ill. establishment, is recalling approximately 25,215 pounds of bacon fritters that may be contaminated with extraneous plastic materials, the U.S. Department of Agriculture’s Food Safety and Inspection Service (FSIS) announced today.

The potato, egg, cheese, and bacon fritters were produced on Nov. 11, 2015. The following products are subject to recall:

- 1,681 cases bearing a batch code 1001487402 containing four 3.75-lb. plastic vacuum-packed packages containing “McCain EARLY RISERS Potato, Egg, Cheese & Bacon Fritters.”

The products subject to recall bear establishment number “EST. 18846” inside the USDA mark of inspection. These items were shipped to food service distributors in Arkansas, Florida, Iowa, Indiana, Illinois, Kansas, Maine, Oklahoma, Ohio, Texas, Tennessee, and Utah.

The problem was discovered after the firm received a consumer complaint and subsequently notified an in-plant FSIS inspector.

There have been no confirmed reports of adverse reactions due to consumption of these products. FSIS has received no additional reports of injury or illness from consumption of these products. Anyone concerned about an injury or illness should contact a healthcare provider.

Consumers who have purchased these products are urged not to consume them. These products should be thrown away or returned to the place of purchase.

FSIS routinely conducts recall effectiveness checks to verify recalling firms notify their customers of the recall and that steps are taken to make certain that the product is no longer available to consumers. When available, the retail distribution list will be posted on the FSIS website at www.fsis.usda.gov/recalls.

Consumers with questions about the recall can contact Dana Hastings at (630) 857-4329, media with questions about the recall can contact Amber Hensley at (417) 849-1970.

Consumers with food safety questions can "Ask Karen," the FSIS virtual representative available 24 hours a day at AskKaren.gov or via smartphone at m.askkaren.gov. The toll-free USDA Meat and Poultry Hotline 1-888-MPHotline (1-888-674-6854) is available in English and Spanish and can be reached from 10 a.m. to 4 p.m. (Eastern Time) Monday through Friday. Recorded food safety messages are available 24 hours a day. The online Electronic Consumer Complaint Monitoring System can be accessed 24 hours a day at: <http://www.fsis.usda.gov/reportproblem>.

USDA Recall Classifications

Class I	This is a health hazard situation where there is a reasonable probability that the use of the product will cause serious,
----------------	---

	adverse health consequences or death.
Class II	This is a health hazard situation where there is a remote probability of adverse health consequences from the use of the product.
Class III	This is a situation where the use of the product will not cause adverse health consequences.
