

Interested in a visit from our mobile unit?

Here are helpful steps to start the process:

1. Reach out to initiate conversation cdhhe@isdh.in.gov
2. Make a list of potential children to be serviced via the mobile unit (e.g., audiologic evaluation, educational evaluation, hearing screening follow up, hearing technology maintenance, speech/language consultation)
3. Obtain consent from parent/guardian to release child-specific information and records to the Center – send a copy of those to cdhhe@isdh.in.gov
4. Share release(s) with the Center staff and hold planning conversation(s)
5. Share mobile unit flyer with families and obtain consent for service for each child that is determined to be part of an upcoming mobile unit visit.
6. Location considerations:
 - a. Where can the unit be parked during the visit?
 - i. Level ground
 - ii. Parking area 45ft long x 17ft wide x 16ft overhead
 - b. What arrival/departure times are best to avoid traffic in the parking area?
7. Consider what other consultations/observations could be performed by Center staff during this visit?
