State Health Commissioner

**DATE:** October 27, 2014

**TO:** All Local Health Departments  
Attn: Chief Food Inspection Officer

**FROM:** Laurie Kidwell, RRT Supervisor  
Food Protection Program

**SUBJECT:** Murry's Inc. - RECALL [Food]

**AFFECTED PRODUCT:** Gluten free breaded chicken products

**SUMMARY:** Class I Recall; The recall has been initiated because the products may be contaminated with Staphylococcal enterotoxin.

The products have a best by date of August 9, 2015. The following products are subject to recall:

- 12-oz. boxes of "Bell & Evans Gluten Free Breaded Chicken Breast Nuggets."
- 10.5-oz. boxes of "Bell & Evans Gluten Free Breaded Chicken Breast."

The products subject to recall bear the establishment number "P-516" inside the USDA mark of inspection.

These products were shipped to retail locations nationwide.

**SUGGESTED ACTION:** Recommend notification of affected parties via phone, fax, or e-mail. Consumers and media with questions about the recall can contact Murry's customer service, at (717) 273-9361. Furthermore, if any recalled products are found, notify this office at 317-233-3213.

**WASHINGTON, Oct. 25, 2014** – Murry’s Inc., a Lebanon, Pa. establishment, is recalling approximately 31,689 pounds of gluten free breaded chicken products that may be contaminated with Staphylococcal enterotoxin, the U.S. Department of Agriculture’s Food Safety and Inspection Service (FSIS) announced today.

The products have a best by date of August 9, 2015. The following products are subject to recall: [[View Label](#) (PDF Only)]

- 12-oz. boxes of “Bell & Evans Gluten Free Breaded Chicken Breast Nuggets.”
- 10.5-oz. boxes of “Bell & Evans Gluten Free Breaded Chicken Breast.”

The products subject to recall bear the establishment number “P-516” inside the USDA mark of inspection. These products were shipped to retail locations nationwide.

The problem was discovered by the Colorado Department of Agriculture during a retail surveillance and sampling program funded by the USDA at a Federal Emergency Response Network lab. After being notified of the positive test result, FSIS conducted traceback activities.

Staphylococcal food poisoning is a gastrointestinal illness. It is caused by eating foods contaminated with toxin-producing *Staphylococcus aureus*.

*Staphylococcus aureus* is a common bacterium found on the skin and in the noses of healthy people and animals. *Staphylococcus aureus* can produce seven different toxins that are frequently responsible for food poisoning.

Staphylococcal enterotoxins are fast acting, sometimes causing illness in as little as 30 minutes. Symptoms usually develop within one to six hours after eating contaminated food. Patients typically experience several of the following: nausea, vomiting, stomach cramps, and diarrhea. The illness is usually mild and most patients recover after one to three days.

To prevent Staphylococcal contamination, keep kitchens and food-serving areas clean and sanitized. Keep hot foods hot (over 140°F) and cold foods cold (40°F or under). Make sure to wash hands and under fingernails vigorously with soap and water before handling and preparing food. Do not prepare food if you have an open sore or wound on your hands or if you have a nose or eye infection.

FSIS and the company have received no reports of adverse reactions due to consumption of these products. Anyone concerned about a reaction should contact a healthcare provider.

FSIS routinely conducts recall effectiveness checks to verify recalling firms notify their customers of the recall and that steps are taken to make certain that the product is no longer available to consumers. When available, the retail distribution list(s) will be posted on the FSIS website at [www.fsis.usda.gov/recalls](http://www.fsis.usda.gov/recalls).

Consumers and media with questions about the recall can contact Murry's customer service, at (717) 273-9361.

Consumers with food safety questions can "Ask Karen," the FSIS virtual representative available 24 hours a day at [AskKaren.gov](http://AskKaren.gov) or via smartphone at [m.askkaren.gov](http://m.askkaren.gov). The toll-free USDA Meat and Poultry Hotline 1-888-MPHotline (1-888-674-6854) is available in English and Spanish and can be reached from 10 a.m. to 4 p.m. (Eastern Time) Monday through Friday. Recorded food safety messages are available 24 hours a day. The online Electronic Consumer Complaint Monitoring System can be accessed 24 hours a day at: <http://www.fsis.usda.gov/reportproblem>.

USDA Recall Classifications	
<b>Class I</b>	This is a health hazard situation where there is a reasonable probability that the use of the product will cause serious, adverse health consequences or death.
<b>Class II</b>	This is a health hazard situation where there is a remote probability of adverse health consequences from the use of the product.
<b>Class III</b>	This is a situation where the use of the product will not cause adverse health consequences.

**SUGGESTED COOKING INSTRUCTIONS**

**Bake:** Preheat oven to 375°F. Spread frozen Nuggets on a baking sheet and bake for a total of 25-30 minutes.

**Pan Fry:** Heat vegetable oil (1/8") in skillet until hot. Fry Nuggets in the hot oil over medium heat 10 minutes, turning over after 5 minutes. Nuggets should be golden brown on both sides.

**Microwave:** Not recommended.  
**KEEP FROZEN. READY TO COOK.**

**All Vegetable Diet**  
Our pampered poultry are free to roam in their climate-controlled houses. They thrive on our specially-formulated all vegetable diet of corn, extruded and expeller-pressed soybeans.

**What AIR CHILLED means for you.**

Since we do not depend on chlorinated ice water for chilling, there is **NO RETAINED WATER...** in our chicken or in our packaging.

**Raised without Antibiotics**

Our chickens receive **NO ANTIBIOTICS** or growth hormones<sup>†</sup> in their feed, their water, or even in ovo... ever.

<sup>†</sup> Federal law prohibits the use of artificial hormones in poultry.

**Boned Breaded Nuggets are uncooked.**  
For safety, this product must be cooked to an internal temperature of 170°F as measured by the use of a meat thermometer. Cooking times may vary.
