

GOING LIVE OCTOBER 29, 2018

Call **TODAY** for free, personalized resources for providers and families.

Help Me Grow Indiana is a service for anyone who influences the life of a young child.

### **Help Me Grow Indiana: Information for Child Health Care Providers**

- The mission of HMG Indiana is to promote optimal developmental of Indiana's young children.
- HMG Indiana isn't an agency, but a partnership based on a national model for organizing existing agencies with the goal of more efficiently and effectively reaching and helping children.
- Housed at the Indiana State Department of Health, HMG Indiana utilizes the MOMS Helpline's phone system in connection with Indiana 211's resource database.

### **"What's in it for me?"**

Help Me Grow Indiana can offer numerous benefits to your practice:

- **Free, standardized developmental screening:** HMG Indiana can work with your practice to provide standardized developmental screening to your young patients. This will include pathways to have children screened by a HMG Indiana care coordinator or provide resources if the healthcare provider has already provided the screening. HMG will use the Ages and Stages Questionnaire for children from birth to 65 months (approx. 5.5 years).
- **Care Coordination:** HMG Indiana provides free, specialized care coordination for families of young children that you serve. This means that if we have the family's permission, we will connect with resources and share information with you as the healthcare provider so we can all be on the same page. Care coordinators will provide referrals to local community resources that support child development and ensure that families successfully connect with those resources.
- **Education:** HMG Indiana provides "Learn the Signs Act Early" materials that promote development to be shared with families in the waiting room/exam room.
- **Training:** HMG Indiana provides an in-service to staff about HMG Indiana.
- **Referral:** HMG Indiana works physicians to establish a referral pathway.
