

**BEFORE THE
NATURAL RESOURCES COMMISSION
OF THE
STATE OF INDIANA**

IN THE MATTER OF:)	
)	
PETITION FOR RATE INCREASE BY KENT'S HARBOR)	ADMINISTRATIVE CAUSE NUMBER: 20-SP-052

**FINDINGS AND RECOMMENDATIONS TO THE U.S. ARMY CORPS OF
ENGINEERS
BY THE NATURAL RESOURCES COMMISSION**

A. Proposed Findings

1. The scope of the informal review accorded by the Natural Resources Commission (the "*Commission*") in Information Bulletin #20 (Fifth Amendment) (*IB #20*) is addressed to petitions for rate increase or rate establishment at marinas and related facilities on properties owned or leased by the Department of Natural Resources (the "*Department*").
2. Although the Department may appropriately exercise whatever rights are provided in a ground lease with respect to marina facilities, as well as any other rights provided by law or equity, the scope of review provided in *IB #20* is limited to the subject of the petition for rate increase. The Commission ultimately recommends action on the petition to the U. S. Army Corps of Engineers ("*Corps*"), and the Corps may either accept or reject the recommendation.
3. Kent's Harbor, in its Petition, requests slip rate increases from 2.97% to 3.59%, with an average of 3.43% and lodging requests reflects 15% to 21%. No requests for a public hearing were received.
4. In determining whether to recommend a rate increase be granted the Department is to analyze similar facilities and compare rates with those sought by the Petitioner. The consideration of rates charged by comparable marinas is fundamental to determining the propriety of proposed rate increases to marina slips and mooring buoys. The preponderance of information in the record indicates that the rate increases proposed by Kent's Harbor are within the range of lodging and boat slip rental rates for comparable facilities
5. A Hearing Officer's or the Commission's recommendation for rate increase shall not be withheld unless the rates proposed exceed the fair market rates charged by operators of other similar privately-owned resort developments comparable to the project in the area.

6. Further, the Commission exercises its authority to recommend approval of the rate increases as requested by Kent's Harbor.
7. The requested rate increases, are within the industry range and supportable. The rates approved by the Commission are set forth in the attached table, which includes all rates previously established as well as the rates recommended for approval through this action

B. Proposed Recommendation

The Natural Resources Commission recommends to the U.S. Army Corps of Engineers that the rate increase sought by the Kent's Harbor Marina for existing facilities be approved as requested
