Narratives**Disaster Damage:**

The 2008 disasters in Indiana have been among the worst in our state's history. 82 of Indiana's 92 counties were declared as Presidential disaster areas between the three disaster periods (DR-1740, DR- 1766 and DR-1795). DR-1740, which affected northern Indiana, occurred after winter rains melted several feet of snow, causing severe flooding. 21 counties were declared as a result of the winter weather. Additionally, the northwestern-most counties declared as part of DR-1740 were again affected by severe storms. As of the end of 2008, the declared counties received \$7.6 million of Individual Assistance and \$5.1 million in Public Assistance as a result of DR-1740. DR-1766, the result of tornados and severe flooding in late May and early June, was clearly the most substantial 2008 disaster with 44 counties declared as Presidential disaster areas. FEMA estimates that total IA and PA for this disaster will exceed \$275 million. FEMA and the SBA received 17,844 applications for IA during DR-1766, resulting in over \$127 million in assistance. The PA process is now in full swing with FEMA having 318 eligible applicants from local and state government and an estimated 2,111 project worksheets. Currently \$22 million have been obligated to local governments, and PA total estimates exceed \$150 million. Lastly, when the powerful remnants of Hurricane Ike passed through Indiana in early September they caused severe flooding in the northern parts of the state and wind storms in the south. DR-1795 resulted in 38 county declarations. To date, 25,800 IA applications have been filed with FEMA and \$43 million of financial assistance provided to individuals.

The chart below depicts the best possible estimate of the financial impact of all the 2008 disasters to the state of Indiana. Based on these estimates, the state has been subject to over \$1.9 billion in damage to public infrastructure, housing and farmland.

Recovery Needs:

While the estimated FEMA assistance is substantial with over \$370 million in funding provided, it will not cover the estimated recovery needs in the areas of economic and workforce development, infrastructure, and housing. The following summarizes the key unmet needs in each of these areas:

Economic and Workforce Development

The largest economic impact to Indiana will be in the area of agriculture where early estimates indicate that crop losses will exceed \$300 million and land rehabilitation losses for activities like debris and sediment removal, levee repair and soil erosion repair will exceed \$200 million. Impact to other Indiana businesses is likely to exceed \$500 million with most of the damage occurring in the five most effected counties of Bartholomew, Johnson, Vigo, Morgan and Owen. The most substantial areas of damage occurred in Columbus, Indiana, where the Columbus Regional Hospital was completely immobilized and had over \$211 million in damages of which less than \$75 million will be covered by FEMA. Additionally, the city's largest employer reported damages in excess of \$200 million none of which qualified for assistance.

Infrastructure

Damage to Indiana's public infrastructure will likely exceed \$325 million and it is estimated that FEMAPA will cover \$217.4 million that was found to be eligible for their program, providing a federal share of \$123.3 million or less than half, of this expense. The remainder does not qualify, is covered by another

Federal program, or represents the state/local match. The chart below depicts the financial assistance the State of Indiana has received. However, the costs that go beyond what is covered below have been identified as key areas of remaining need.

FEMA-IA Assistance (\$000)	FEMA-IA Applicants Assistance (\$000)	SBA Loans (\$000)	FEMA-PA Assistance (\$000)	Total Financial

About half of Indiana's PA expense comes from the extensive damages to Columbus Regional Hospital, a major hospital servicing a large portion of Southeastern Indiana. The hospital suffered over \$211 million in damage of which about half will qualify for FEMA-PA. One of the state's top priorities has been to help CRH recover from the catastrophic losses experienced in June of 2008, and a portion of PA-match funding would be for this effort. The remaining PA expenses result from damage to a mixture of public infrastructure such as damaged roads, bridges, dams and levees.

Housing

Indiana has over 17,000 families who suffered some type of damage to their dwelling. Housing is a key challenge for the state. FEMA-IA has provided substantial assistance; however, additional help will be required. The most urgent need is to insure that homeowners who are displaced by flooding are not faced with outstanding mortgage debt from a substantially damaged property that precludes them from obtaining suitable replacement housing. Over 700 homes totaling \$80MM have been identified for community buy-out programs. Projections from DR-1766 indicate that FEMA's payout under the HMGP will leave Indiana with a shortfall of at least \$12MM. Extrapolating these metric

Recovery Needs:

s to DR-1795, Indiana expects an underpayment from FEMA to total \$6MM. Moreover, 20% of the displaced homeowners also find themselves underwater on average 10% with their mortgage. To make these homeowners whole will cost an additional \$1.6MM. In total, Indiana anticipates nearly \$20MM in unmet housing need for homeowners who have lost their homes due to these recent disasters. Filling this gap with CDBG

Disaster Recovery Funds would make homeowners whole and permit localities to move forward with their buy-out programs expeditiously.

The State of Indiana has set-aside in excess of \$39,021,933 to meet the requirement for the multi-family housing set-aside.

Activity Description:

The City of Elkhart will use grant funds to demolish the MISCO/Walter Piano Building, which is a danger to the community due to its blighted condition. The project will include systematic demolition, and debris removal of hazardous and recyclable material. The presence of the building has contributed to decreased property values and tax base in the area. Once the building is demolished and cleared, it will provide a prime location for development and potentially spur additional economic investment.

700 West Beardsley, Elkhart, Indiana 46514-2234

Activity Progress Narrative:

At the end of September, 2014, this project is in stage two of close out. The final close out letter is expected the first of October from OCRA.

Activity Description:

The project is the separation of a combined sewer which is needed because approximately 50 to 60 times a year the sewers are overwhelmed by incoming rainwater or melting snow that results in flooding in homes and businesses in the area. The Town is under an Agreed Order with the Indiana Department of Environmental Management and must correct the water quality issues by 2012. The Town of Speedway will use grant funds to install approximately 22,000 feet of storm sewer and new inlets and manholes. This will eliminate flooding in homes and businesses and contribute to the economic recovery of the disaster affected area.

Location Description:

Central downtown area between 10th Street and 16th Street and along the east and west sides of Main Street

Activity Progress Narrative:

The project is complete and was monitored for compliance by OCRA on September 24, 2014. The monitoring results letter is expected soon, and the final close out documentation will be submitted upon receipt of the monitoring letter.
