The proposed rules addressing the Comity issue are in process and the NOI has been published. We are now working on the fiscal impact and the goal is to have this public hearing at the January board meeting.

- b. Hashim Burki  
Re: Letter from Phillip C. Wankat on the Interdisciplinary Engineering Program at Purdue

Refer to the personal appearance above. Tell Purdue that they are to advise their students that they must get the 12-8-12-12 the required credit hours according to the law and code. The program still lacks some components and the students must have the required course work.

- c. Goal Setting  
Re: Board Goal Setting

1. **New Members:** The members were all appointed at the same time and they need to prepare for the replacement of all of members as the terms expire.
2. **Approved Programs:** How does the board evaluate the education and curriculum? Maybe the board wants to discuss this in light of the global economy, etc.

Be sure to have the 7 goals listed on the agendas for each meeting.
