INSPECT: Getting the Data Physicians Need When Making  
Critical Prescribing Decisions

# Cost of the Opioid Epidemic

## Human Cost

### IN Drug Poisoning Deaths

**Opioids-** 1,176 in 2017  
785 in 2016  
529 in 2015  
452 in 2014

**All Drugs-** 1,852 in 2017  
1,518 in 2016  
1,236 in 2015  
1,152 in 2014

\* The 2014 overdose death rate marked a 500 percent increase since 1999, placing Indiana 15<sup>th</sup> Nationwide for drug overdose fatalities

# Cost of the Opioid Epidemic

## Cost to Community

- Indiana's health care cost for prescription opioid abuse **\$650 million**
- Medical costs and lost lifetime earnings for victims of drug overdose deaths in Indiana **\$1.4 billion**
- Hospitalization of babies with Neonatal Abstinence Syndrome **\$64 million**
- Annual cost to U.S. economy **\$78.5 billion**

Nearly **25 percent** of the economic burden is shouldered by public sources, such as Medicaid, Medicare, social services, Government-funded treatment programs and costs to our criminal justice system.

## Top 5 Drugs filled in Indiana in 2018

1. Hydrocodone (Vicodin) 2,656,678
2. Oxycodone (Percocet) 1,867,315
3. Alprazolam (Xanax) 1,043,740
4. Dextroamphetamine (Adderall) 914,554
5. Tramadol 894,973

# Prescription Drug Monitoring Programs (PDMPs)

## What is a State PDMP?

A statewide electronic database which collects, stores & analyzes information on controlled substances dispensed in the state.

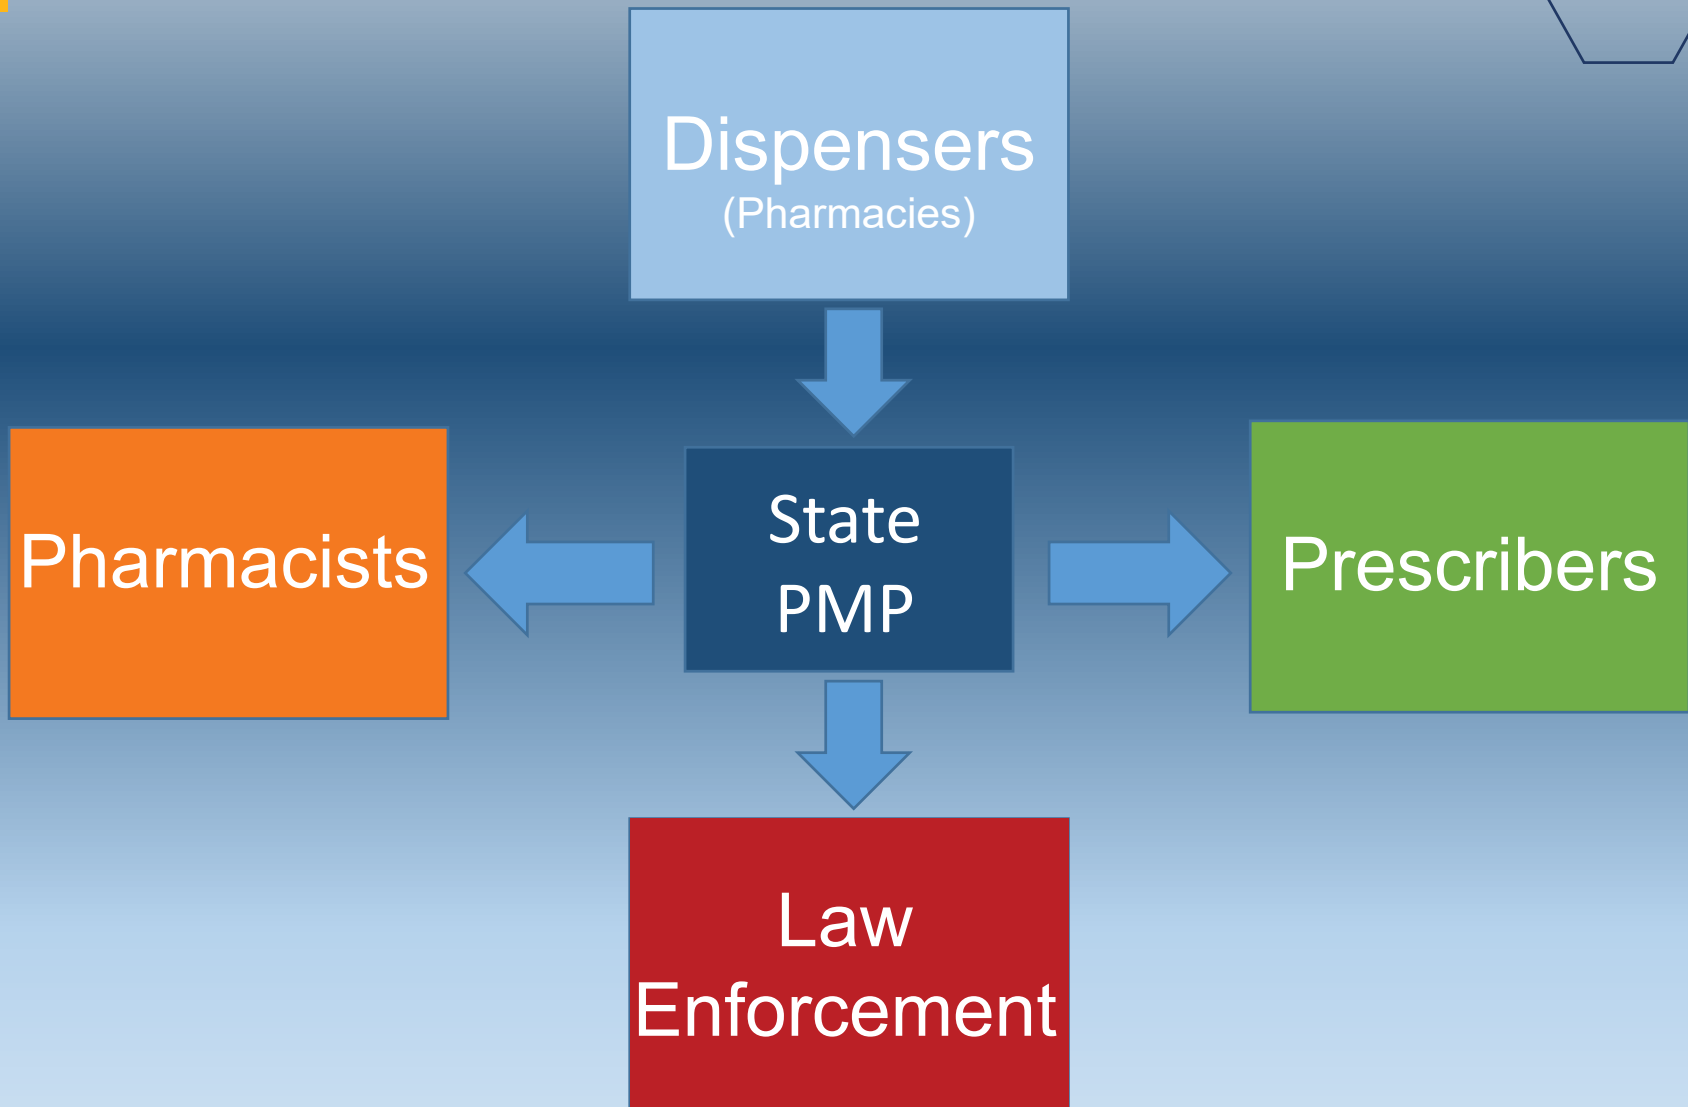

## What data do PDMPs collect?

- Patient info
- Prescriber info
- Dispenser info
- Schedule II-V drugs

## Who can access PDMP data?

- Prescribers
- Pharmacists
- Law Enforcement

# How do State PDMPs work?

# INSPECT Program Overview

INSPECT is Indiana's Prescription Drug Monitoring Program (PDMP), which collects and tracks prescriptions for controlled substances schedule II-V and pseudoephedrine/ephedrine dispensed in Indiana. PDMPs are tools used by States to address prescription drug abuse, addiction and diversion

- Accessible to registered healthcare providers, pharmacists and law enforcement **24/7**
- Collects ~ More than **17 million** Controlled Substance prescriptions each year
- Includes data from retail & hospital pharmacies, dispensing physicians, mail orders, online and non-resident pharmacies
- Required reporting frequency: **Every 24 hours/business day**
- **100% funded** by controlled substance registration (CSR) fees

# INSPECT by the Numbers

Registered INSPECT users

Prescribers: **26,161**

Law Enforcement: **2,667**

Pharmacists: **7,798**

Veterinarians: **758**

CSR Prescribers

licensed in Indiana = **29,427**

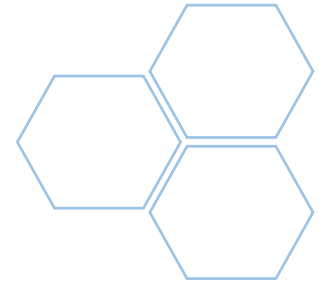

Prescribers Registered in INSPECT  
& Licensed in Indiana = **25,301**

Prescribers Registered in INSPECT  
& NOT Licensed in Indiana = **860**

Percentage Registered = **86%**  
**(25,301 / 29,427)**

# INSPECT by the Numbers

IN Healthcare providers registered for INSPECT in 2017 = **22,610**

IN Healthcare providers registered for INSPECT in 2018 = **25,301**

Patient Rx history requests by Indiana users in 2017 = **2,697,850**

Patient Rx history requests by Indiana users in 2018 = **5,092,777**

Controlled substance prescriptions logged into INSPECT in 2017 = **13,431,572**

Controlled substance prescriptions logged into INSPECT in 2018 = **12,574,674**

# Eligibility for Practitioners

Practitioners must hold a valid individual DEA number as well as a valid CSR license (N/A for Pharmacists). The practitioner must be providing medical or pharmaceutical treatment, or evaluating the need for such treatment to the patient in question.

## INSPECT DOES NOT COLLECT

- Any substance that is not controlled
- Pseudoephedrine sold over the counter
- Methadone clinic administrations
- Any dispensation less than a 72-hour supply
- Any substance that is *administered* directly to the patient

## INSPECT COLLECTS

Controlled substances dispensed to IN residents from:

- Retail pharmacies
- Hospital Outpatient pharmacies
- Mail Order pharmacies
- Non-resident pharmacies
- Physician dispensing out of office that is more than a 72-hour supply
- Pseudoephedrine prescribed by a practitioner
- VA facility dispensations

# Sorting FACT from Fiction: Interstate Data Sharing

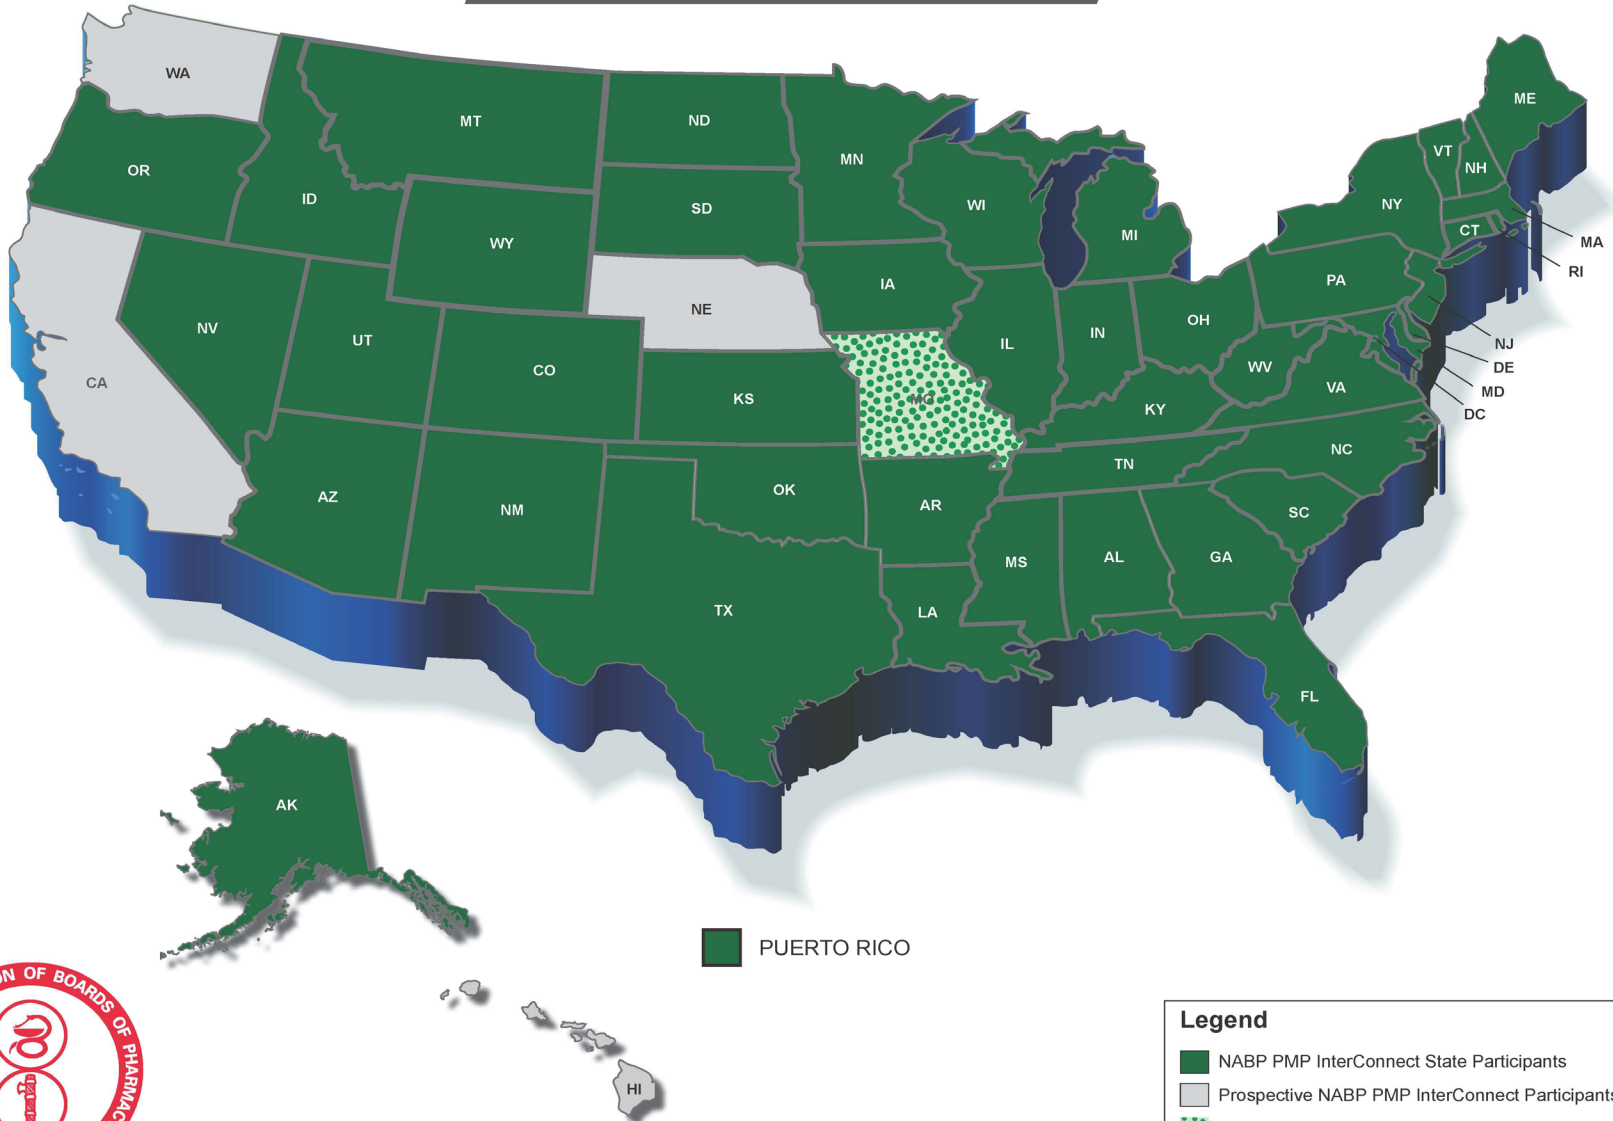

**FICTION** – State PDMPs don't share data across State lines

**FACT** – 46 State PDMPs currently share data through the PMP InterConnect

- PMP InterConnect became operational with data exchanges between Indiana and Ohio in July 2011.
- Governed by a Steering Committee of representatives of the PMPs that are participating in the system.
- All data is encrypted and no data is stored in PMP InterConnect.
- Supports more than 8 million interstate transactions every month.

# PMP INTERCONNECT<sup>®</sup>

# Registering as a Healthcare Professional

1. To request a new account in PMP AWARXE, the user must navigate to the login screen located at <https://indiana.pmpaware.net/>.
2. Once at the login screen, the user must click “Create an account”
3. The first screen displayed requires the user to enter their current, valid email address and select a password. The password must be entered a second time for validation.
  - a. The password must contain at least 8 characters, including 1 capital letter and 1 special character (such as !,@,#,\$)

# Guidelines for Practitioners

- Practitioners: Must hold an valid individual DEA number as well as a valid CSR license (N/A for Pharmacists). The practitioner must be providing medical or pharmaceutical treatment, or evaluating the need for such treatment to the patient in question.
- YOU ALONE are ultimately responsible for the activity that occurs on your account.
- Always validate the contents of the Rx Report!
- Feel free to share information regarding the contents of a patient's Rx History Report with mutual providers and law enforcement—but DO NOT send along your hardcopy. Advise mutual providers to obtain their own report.
