## **INDIANA STATE NURSES ASSISTANCE PROGRAM**

Tom Bissonette, Program Director of the Indiana State Nurses Assistance Program (ISNAP) was present. There are a total of 239 nurses being actively monitored and 33 in the intake process. They are currently doing about 4 intakes per day. They have recently had 8 closures due to noncompliance.

He provided the Board with a preliminary and comprehensive report of the satisfaction survey. The survey was mailed to 267 participants. 120 of the surveys were returned, about 45%. The results showed that about ½ of the participants had no medical coverage and 1/3 reported problems with chronic pain. The overall conclusion appears to reflect a group of participants who are generally satisfied with ISNAP's services. However, there are aspects of the monitoring agreement that participants find either not useful or slightly un-useful. Tom indicated that he plans on doing this survey once per year.

Tom reported to the Board that the Educational outreach remains a high priority. Tom addressed the students in the audience and handed out literature on ISNAP.

## **DISCUSSION**

National Council of State Boards of Nursing – Model Nursing Practice Act – FYI

Rayanna Spalding – Correspondence requesting to be licensed as a nurse – Ms. Spalding has training as a EMT and a radiologist technician and is requesting that this experience allow her to become a nurse. The board requested that a letter be sent to her telling her that she needs to have her transcripts evaluated by a nursing school to see if she needs further coursework or clinicals.

In the Matter of Deborah L. Hoy, R.N., Cause No 93 NB 002 – Request to Withdraw the Order of Probation – The Board granted her a hearing to consider her request to withdraw the order of probation.

## **EDUCATION**

Indiana University Northwest – Plan of Correction - The Board reviewed Indiana University Northwest's plan of correction for improving their pass rates. The Board moved to ACCEPT their plan of correction.

Peters/King, 6/0/0

Let the record reflect that Traci Little, Consumer Member arrived at 9:20 a.m.

Olympia College – Report of Survey Visit & Other Areas of Concern – Charles Mitchell, Director of Education and Mary Klinefelter, President, were present to represent Olympia College. Dr. Paulette Worchester did a survey visit to Olympia College in August 2002. She cited several problems. Mr. Mitchell presented the Board with their response to the survey visit. Laurie Peters stated that it is a major problem that the program does not have a designated chair and there is not a qualified person acting as program chair in the interim. Neither Mr. Mitchell nor Ms. Klinefelter are qualified to act as program chair and one of the nursing faculty should really be acting as program chair during the interim.

They have also had continually low pass rates the last 5 years. Their plan of correction did not accurately address what they are doing to correct this. Ms. Klinefelter did state that she has been seeing an upward trend in the passrate from those that have graduated since the program transferred ownership from Horizon Career College to Olympia.

They indicated that all of their instructors are BSNs and they have 1 completing her masters in Health Science. They currently have 54 students in the PN program and their term began September 23<sup>rd</sup>. Their program consists of 4 quarters. They currently hold clinicals at St. Mary's Hospital, Lincolnshire and St. Catherine's Hospital. The clinicals start in the 2<sup>nd</sup> quarter. They manage the 1 to 10 ratio rule by not having all 54 students in clinicals at the same time.

Laurie also indicated that it is a problem that there are not set hours so that students know when to get in touch with instructors, rather students are told that they need to contact the instructors to set up a time. Instructors should also be getting paid for prep and advisory hours.

The Board questioned the high faculty turnover rate. Ms. Klinefelter stated that the previous program chair, Freda Black left because she took a pay cut to take that position and didn't realize how much work it was going to be. She said there is a high turnover due to pay but they feel like there are other advantages, such as not working evenings or weekends that would outweigh the low pay. They have recently increased the faculty pay by \$2.00 per hour.

After discussion, the Board voted to put Olympia College on Conditional Accreditation and have them appear again at the November board meeting with an update regarding the new program chair and provide a specific details on their plan of correction to address the low passrates.

Peters/Helmuth, 6/0/1, with Ms. Little Abstaining

Correspondence from Ball State University – Background Checks – Nancy Dillard, was present before the Board to explain that they are now doing criminal background checks before students enter the program. Many agencies are requiring this before clinicals due to Zachary's Law and Medicare/Medicaid exclusions. In the past they advised students with criminal histories that they may not be licensed once they complete school but

starting in the spring semester, when this is implemented, they will not be letting students with a positive criminal background check into the program. Ms. Dilliard explained that they already have this policy in the Early Childhood Education Program. The Board stated that we cannot advise them on their admission standards. As long as the policies are clear, in writing and are given to the students ahead of time, this does not appear to violate the nurse practice act.

Ivy Tech State College, South Bend – Plan of Correction – The Board reviewed Ivy Tech South Bend’s plan of correction for improving their pass rates. The Board moved to ACCEPT their plan of correction.

King/Thomas, 6/0/1

Marion Community School of Practical Nursing – Request to appoint Rose Johnson as Program Chair - The School explained to the Board that Ms. Johnson will complete her Master’s Degree in December 2003. After discussion, the Board moved to APPROVE Ms. Johnson as program chair.

He was admitted to Community Hospital for approximately eight (8) days and then entered Safe Haven. Mr. Johnsonbaugh contends that the Findings of Fact and Order were entered unfairly

since Respondent did request a continuance of his hearing because he was in treatment. The Board denied his request for continuance and proceeded with the hearing. Respondent did not receive the notice of proposed default since he was in the hospital. He suggested to the Board that some evidence was not presented last time. The Board members indicated that they did indeed know about the evidence and did not wish to re-hear this case and that the Respondent has to take responsibility for his actions.
