## New Homeland Security Director takes office

On November 24, the new Executive Director of the Indiana Department of Homeland Security, David Kane took office. He was appointed by Governor Pence on October 30.

“With nearly 30 years of experience in emergency response and management positions, David Kane has demonstrated his public safety expertise and epitomized what it means to be a true public servant,” said Governor Pence. “I am confident that he is the right man at the right time to lead Indiana’s efforts to ensure the preparedness of the state and the safety of Hoosiers as Executive Director of the Indiana Department of Homeland Security.”

Since 2005, Kane has served as Federal Security Director for the U.S. Department of Homeland Security Transportation Security Administration where he set the direction and oversaw policy implementation of the national transportation security program. Prior to this role, he served as an Assistant Federal Security Director for the department. From 1985 to 2002, he served as an air marshal within the U.S. Department of Transportation’s Federal Aviation Administration.

Kane has experience working at the county, state and federal level in public safety. His ability to coordinate among numerous emergency response agencies was recognized when the U.S. Department of Homeland Security Secretary appointed him as the Federal Coordinating Official for the 2012 Super Bowl in Indianapolis.

Kane serves on the Executive Policy Board for the Indiana Intelligence Fusion Center, the FBI Joint Terrorism Task Force Executive Board, the U.S. Attorney’s Anti-terrorism Advisory Council, and the Indiana Counter-Terrorism and Security Advisory Committee. He is a graduate of the Indiana Law Enforcement Academy and has certification from the Federal Law Enforcement Training Center.

Kane replaces John Hill, who serves as Deputy Chief of Staff of Public Safety in the Office of the Governor.

## Family applications are now being accepted for On My Way Pre-K

Indiana's Office of Early Education and Out-of-School Learning (OECOSL) is now accepting applications from families in the first four pilot counties who may be eligible for grants for their children to receive high-quality, prekindergarten education through the On My Way Pre-K program starting in January of 2015. Children eligible for the first phase of the pilot will include 4-year-olds living in Allen, Lake, Marion or Vanderburgh Counties who start kindergarten in the fall of 2015. Jackson County is also part of the pilot and will become operational later in 2015.

Families must meet the following eligibility criteria to apply:

- The family must have an income below 127 percent of the federal poverty level ([See income eligibility guide here](#)),
- The family must reside in Allen, Lake, Marion or Vanderburgh Counties, and
- The child must be four (4) years old and starting kindergarten in August 2015.

Applications are being accepted until December 15, 2014. If more families qualify than there are grants available, awards will be made through a randomized lottery process. This lottery will be held on or around December 17, 2014, and families will be notified if they receive a grant.

Once a child has received a grant, parents may choose from any of the eligible, enrolled On My Way Pre-K programs. OECOSL is currently enrolling high-quality programs which are either top-ranked at level

Approved pre-K programs may be located in a public or private school, licensed child care center, licensed home or registered ministry as long as that program meets the quality requirements and is registered as an On My Way Pre-K Provider. Families may choose from a program that is full-day or part-day, as well as from programs that end with the school year or continue through the summer. A list of approved pre-K providers will be made available in December and posted online. Families who need help finding an approved pre-K program can also call 1-800-299-1627 for assistance from an early learning referral specialist.

On My Way Pre-K is the name of Indiana's first state-funded prekindergarten program, which was approved as a five-county pilot by the Indiana General Assembly in 2014. In addition to Allen, Lake, Marion and Vanderburgh Counties, which are making a limited program available for about 400 children beginning in January, Jackson County will join the others and be fully-operational by the fall of 2015. The pilot program is expected to ultimately serve approximately 2,000 students in the five counties.

Governor Pence and the Indiana Family and Social Services Administration are committed to asking the 2015 General Assembly to set aside funds in the next state budget to help ensure the ongoing success of On My Way Pre-K. The Office of Early Childhood and Out-of-School Learning is a division of the Indiana Family and Social Services Administration (FSSA).

## Top ten tips to make a healthy holiday feast your family will love

Food is a key ingredient in our holiday celebrations. Many of our traditions include food, and it can often seem overwhelming and impossible to make healthy choices and not gain weight. We're surrounded by tasty temptations during the holiday season. To stay on track this holiday season, try these 10 healthy eating tips:

### **Don't arrive at the table over-hungry:**

Avoid skipping meals. Getting over-hungry is a recipe for disaster. It will lead to over-eating and being stuffed is a good idea only if you are a turkey! Instead, try to choose smaller, healthier meals and snacks before the big meal such as an egg with a slice of whole-wheat toast, or a bowl of whole-grain cereal with low-fat milk for breakfast.

**Substitution solution:** Consider what foods you can pass over and those that you really want. You might opt to skip the appetizers in favor of dessert, or go light on the stuffing to make room for mashed potatoes. Make a few trade-offs so you can enjoy what you want most.

**Scan the line up:** There are so many options to choose from, it can be overwhelming. Peruse the food layout without a plate first to methodically pick and choose what you want to eat and consider balance and variety. This way, when you serve your food you will still have room on your plate (and in your belly) when you get to the end of the line.

**Saddle up to the sides:** Identify high fat Thanksgiving favorites, which can be found in fried and creamy dishes, items with full-fat gravy, as well as cheese-filled casseroles. If you cannot control the ingredients that go into a dish (or

your desire to eat them), simply limit yourself to a smaller helping.

**Fill 'er up:** Fill half your plate with fruit and/or vegetables to fill your belly up with high fiber, lower calorie options. Save one quarter of your plate for a lean meat and another quarter for a starch or whole grain option. Plain vegetables without added sauces, roasted sweet potatoes, salads, and mashed potatoes with low-fat gravy tend to be the best bets because they are lower in fat and calories.

**Go skinless:** choose a 3-4-oz (size of the deck of cards) skinless, white turkey meat for a lower fat serving. Ham is a saltier option, but can be enjoyed in the same portion.

**Table manners:** Choose small first-helpings so you won't feel guilty about going back for seconds. It takes about 20 minutes for the body's fullness factor to kick in, so slow down your eating by putting your fork down and drinking water in between bites, and join in the conversation.

**Quench your thirst:** The body often confuses thirst for hunger. Stay

hydrated throughout the day choosing water or other calorie-free beverages. Alcohol, flavored coffees, apple cider, hot chocolate, and other holiday beverages can be loaded with calories and added sugar, so enjoy them in moderation.

**Focus on everything but the food:** The true spirit of the holidays is not the food, but connecting with family and friends. Position yourself away from the food. Take a walk outside to enjoy the fall weather or play a game instead of hanging around the food all night.

**Kiss the cook:** Substitute a few high fat, high sugar, and high salt ingredients with healthier options. For instance, use fat-free chicken broth to baste the turkey and make gravy. Use sugar substitutes in place of sugar and/or fruit purees instead of oil in baked goods. Reduce oil and butter wherever you can. Try plain yogurt or fat-free sour cream in creamy dips, mashed potatoes, and casseroles. Try 98 percent fat-free cream soup and low-fat milk. Avoid using the salt shaker and instead opt for salt-free herbs and spices.

## 18th Street Brewery, Brown County State Park and the Children's Museum of Indianapolis named "Best of Indiana"

With thousands of votes cast, the public has selected the winners of the annual Best of Indiana Fall awards. The awards, a component of the Indiana Office of Tourism Development's (IOTD) popular fall travel site VisitIndianaFall.com, asked Hoosiers to select Indiana's Best Fall Beer, Best Fall Camping adventure and Best Haunted Attraction. The winners are:

- **Best Fall Beer:** Sinister Double IPA- 18th Street Brewery, Gary.
- **Best Fall Camping Adventure:** Brown County State Park
- **Best Haunted Attraction:** Creepy Carnival Haunted House - The Children's Museum of Indianapolis

"These winners truly represent the Best of Indiana. The Children's Museum of Indianapolis is a world-class destination, Indiana's robust micro brewing industry embodies the entrepreneurial spirit of Hoosiers and the Indiana parks system is the envy of other states," said Mark Newman, IOTD's executive director. "It is a point of pride to have these winners, as well as the diverse set of nominees that made up the categories, in our state."

With nearly 100 microbreweries throughout Indiana, the Hoosier State is in the midst of a beer boom. Twenty-two fall-themed brews were nominated in this category. Indiana's Best Fall Beer is Sinister Double IPA from 18th Street Brewery in Gary. The Best Fall Beer category was the most competitive of the three and

saw the highest voter participation, showing Hoosiers love Indiana-brewed beer. 18th Street Brewery only bottles Sinister Double IPA once a year, giving Hoosiers yet another reason to look forward to fall. 3 Floyds' (Munster) Munsterfest and Iechyd Da Brewing Company's (Elkhart) Breakfast Cookies Milk Stout rounded out the top three vote getters.

Indiana abounds with natural beauty and offers camping opportunities diverse enough to accommodate all experiences; from "glamping" to reliving the rustic days of the pioneers. Voters selected the camping options at

*Best Fall Camping Adventure: Brown County State Park.*

Brown County State Park as Indiana's Best Fall Camping Adventure. Home to some of the most challenging bike trails in North America, Brown County State Park is nationally-known for its fall beauty. There are few better locations in the Hoosier state to experience autumn's brilliant displays of color than this southern Indiana destination. Also finishing in the top three were Lake Rudolph Campground and RV Resort in Santa Claus and Turkey Run State Park in Parke County.

Creepy Carnival Haunted House at the Children's Museum of Indianapolis takes the prize as Indiana's Best Haunted Attraction. In its 51<sup>st</sup> year, the Creepy Carnival offers varying levels of fright for children of all ages, from a "lights on" option for younger kids to the "extreme scream" for older kids and adults. The Creepy Carnival attracts over 50,000 visitors annually and is now Indiana's Best Haunted Attraction. Seymour's Fear Fair and Halloween Weekends at Lake Rudolph Campground and RV Resort were also in the top three.

Nominees for Best Fall Beer, Best Fall Camping Adventure and Best Haunted Attraction were recommended by members of Indiana's travel, tourism and hospitality industry with final selections made by IOTD. The competition began in early September and the public could vote for up to five nominees in each category. Public participation in this year's competition far exceeded last year's. [VisitIndianaFall.com](http://VisitIndianaFall.com) is a companion site to the recently-redesigned [VisitIndiana.com](http://VisitIndiana.com), the official state travel website where discounts, trip ideas and helpful tips are easily accessible.

Tourism is big business in Indiana. An economic impact report released in December 2013 shows the travel, tourism and hospitality industry is the sixth largest industry in the state (excluding government), is directly responsible for nearly 140,000 jobs, generates over \$2.1 billion in tax receipts and contributes over \$10 billion in revenue to Indiana businesses. The recently-launched Honest-to-Goodness Indiana brand campaign aims to further elevate the untold stories of Indiana's destinations, assets and attractions.

## Use caution when driving this winter

INDOT wants you and your family to stay safe on the roads this winter. By following these tips, you'll be ready for winter driving. And don't forget: Ice and Snow, Take it Slow!

### Winter Driving Safety

- **Knowledge:** Before leaving home, find out about the driving conditions throughout Indiana at [indot.carsprogram.org](http://indot.carsprogram.org). Safe drivers know the weather, and their limits. If the weather is bad, remember: Ice and Snow, Take it Slow... or just don't go.
- **Clear:** Remove any snow on your vehicle's windows, lights, brake lights and signals. Make sure you can see and be seen.
- **Inspect:** Check your vehicle's tires, wiper blades, fluids, lights, belts and hoses. A breakdown is bad on a good day and dangerous on a bad-weather day.
- **Time:** Leave plenty of time to reach your destination safely. It's not worth putting yourself and others in a dangerous situation just to be on time.

### Caution: Slippery When Wet!

- **First Snow or Ice:** Drivers often aren't prepared for winter driving and forget to take it slow. Remember to drive well below the posted speed limit and leave plenty of room between cars.
- **Black Ice:** Roads that seem dry may actually be slippery and dangerous. Take it slow when approaching intersections, off-ramps, bridges or shady areas these all are hot spots for black ice.
- **Limited Visibility:** Stay attentive and reduce speed. Know what's going on around you.
- **Four-Wheel Drive:** On snow and ice, go slowly, no matter what type of vehicle you drive. Even if you have an SUV with four-wheel

drive you may not be able to stop any faster, or maintain control any better, once you lose traction. Four-wheel drive may get you going faster, but it won't help you stop sooner.

- **Give INDOT plow crews room to work.** It's a difficult job and they're on the road 24 hours a day to keep you safe. Stay back, slow down and watch for plows making sudden stops or turns.

Tips for safe winter driving can be found at [WinterDrivingSafety.in.gov](http://WinterDrivingSafety.in.gov)

## Maintain not gain over the holiday season and new year

Maintain not gain over the Holidays  
For many Hoosiers, having a happy holiday means putting healthy nutrition and physical activity on hold resulting in weight gain. Some gain five or more pounds and don't lose it the following years. Excess weight or an unhealthy lifestyle contributes to several chronic diseases including heart disease, diabetes, hypertension and cancer. Maintaining a weight that's appropriate for one's height and age is an easy way to stay healthy and save money on health care costs. So, make a commitment to yourself and to your health to remain at your current weight throughout the holiday season this year!

Some tips for staying healthy over the holidays include:

- Plan ahead to add more physical activity into your week. Take a long walk with the family first thing in the morning, and then

### Invest In Your Health

again after the meal instead of heading straight for the couch.

- Instead of piling your plate sky-high this holiday, try focusing on right-sizing your portions.
- If you decide to go shopping, plan to get in some activity while there. When you first arrive, park far away and then take some laps around the mall. Pack your own snacks and water to avoid the temptation of the food court. Wear comfortable walking shoes and remember to take the stairs instead of the escalator or elevator.
- Fill half of your plate with fruits and vegetables, and then correctly portion out your other items.
- Consider making substitutions in some of your favorite recipes. For example, mashed potatoes

typically include lots of butter and whole milk. All of that extra fat can make it harder to maintain your weight over the holidays. Consider using mascarpone cheese instead of butter and low-fat milk instead of whole milk. You won't even notice the difference!

A great way to keep on track is to write down your daily physical activity, how many fruits and vegetables you eat each day, and how much water you drink. It can really help! Happy Holidays!
