Effective July 1, 2001 Indiana Code IC 22-3-7 requires that all individuals requesting an Independent Contractors Exception Certificate must first be verified by the Indiana Department of Revenue. By law the Comp Board cannot provide an independent contractor a certificate of exemption until the Department of Revenue verifies no taxes are currently owed.

In order to receive an independent contractor certificate of exemption:

1. Go to State Government Complex North Building - RM N105
2. The Department of Revenue will verify that your taxes are current.
3. The Department of Revenue provides a processed certificate to the Workers Comp Board located in the Government Center South Building, Room W196.
4. The Worker's Comp Board will complete processing and provide a certificate of exemption. A certificate becomes effective (7) days after the date it is validated by The Worker's Compensation Board.
